Systematic Intervention With Disturbed Children:

Systematic Intervention with Disturbed Children Marvin J. Fine, 2012-12-06 Disturbed children constitute a sizeable and varied percentage of the child population Generally two to three percent have severe longstanding problems and 20 to 30 percent have current more transient problems While preventive efforts are needed it also seems obvious that many children will continue to function in a disturbed and disturbing fashion and will continue to require various kinds of therapeutic interventions These interventions will mainly occur in school and community settings This book attempts to present a picture of some fairly popular models of intervention and to consider important related issues There are probably as many ways of coping with disturbed children as there are creative caring persons attempting to do the coping A growing literature exists on ways of conceptualizing and intervening with such children It was believed by the editor that an organized body of information on these concepts and techniques would prove useful to student and practitioner A danger with such collections is that if they mainly portray novel or atypical techniques while informative the book quickly becomes passe and of limited value This book's focus is on contemporary thought but also on orientations that have stood the test of some time and the stability of the underlying theory

Systematic Intervention with Disturbed Children Marvin J. Fine, 1984-07-31 [Handbook of Serious Emotional Disturbance in Children and Adolescents](#) Diane T. Marsh, Mary A. Fristad, 2002-10-23 The only comprehensive work on SED with practical information on diagnosing and treating children with SED Features contributions by leading experts of SED research and practice Includes a foreword by Kay Jamison a nationally recognized author on mental illness

Child Mental Health Practice From the Ecological Perspective Richard L. Munger, 1991-07-31 The ecological perspective is a contextual approach which works at the interface between families and the broader ecology or ecosystem of the child the approach is not new but has not been widely adopted due to the lack of illustrative material available for practitioners Through an approach more descriptive and explanatory than empirical the author shows the clinician or other child care professional why the child's environment is crucial and provides techniques to draw people in the child's environment into the healing process [Current Catalog National Library of Medicine \(U.S.\)](#), *National Library of Medicine Current Catalog National Library of Medicine (U.S.)*, 1984

A System of Care for Severely Emotionally Disturbed Children & Youth Beth A. Stroul, 1986 **Clinical Child Psychology** Steven I. Pfeiffer, 1985 **Emotionally Disturbed and Deviant Children** William C. Rhodes, James L. Paul, 1978 **Counseling the Defiant Child** John B. Mordock, William Van Ornum, 2001 This book focuses on counseling latency aged children with emphasis on the defiant and aggressive child It addresses the specific training needs of those counseling these children and includes discussion of the developmental failures of many of the children sent for counseling and a framework of the normal period of development called latency

Pupil Behavior, Self-control, and Social Skills in the Classroom Archie J. McKinnon, John Kiraly, 1984 *Testing Children* Sampson Joseph Weaver, 1984 The purpose of the book was originally to

offer a relatively brief manual on the essentials of psychological assessments for the general classes of problems in children and youth that present themselves to psychologists in general practice There are few psychological training programs that train clinicians to specialize in children Experts in child clinical psychology have lamented the failings of adult oriented training programs in preparing practitioners to work with children and youth Since adult programs make up the overwhelming majority of psychology programs in existence many psychologists who subsequently take positions in general practices find themselves faced with assessments for which they have had minimal training

Bulletin of the Menninger Clinic Menninger Clinic,1984 *Approaches with Emotionally Disturbed Children* Bruce T. Saunders,1974 Intervention Techniques for Child/youth Care Workers Mark A. Krueger,1983 **Cumulated Index Medicus** ,1989 *Criminal Justice and the Placement of Abused Children* Diane R. Martell,2005 Child welfare criminal justice and law enforcement agencies recognize the importance coordinated inter agency practices to ensure the best outcomes for victims of child maltreatment Martell examines if the separate interventions of the criminal justice system and child welfare system impact each other Specifically she studies the potential for an association between the criminal justice case prosecution and the protective service child placement decisions The results indicate that in some cases criminal justice interventions can help to prevent the need for child removal In addition Martell explains how the presence of child neglect can be an important factor in whether or not a child abuse case is chosen for prosecution

Helping Abused and Traumatized Children Eliana Gil,2006 From the author of the bestseller *The Healing Power of Play* this comprehensive book outlines an innovative assessment and treatment model Gil integrates CBT family and expressive therapies and includes in depth cases an extremely popular feature She helps the clinician address each child s unique needs with a wide range of treatment options

School Discipline and School Violence Irwin A. Hyman,Avivah Dahbany,1997 Although this book was designed as a comprehensive text on school discipline it differs from almost all other texts on the subject We do not present the subject matter from a purported value free point of view Approaches to discipline as defined in any society are favored and directed by the political social and moral ideology of the adherents of any particular point of view We affirm that students are entitled to the same constitutional freedoms and respect as are adults

Children with Exceptionalities in Canadian Classrooms Margret Winzer,2001 A comprehensive introduction to children with exceptionalities It stresses the psychological cognitive social and learning situation the unique difficulties faced by children who are exceptional the developmental consequences of various disabilities and the multiple types of interventions necessary to accommodate these students effectively in local schools
