Colonial Cinema* Nayoung Aimee Kwon,Takushi Odagiri,Moonim Baek,2022-02 *Theorizing Colonial Cinema* is a millennial
retrospective on the entangled intimacy between film and colonialism from film s global inception to contemporary legacies
in and of Asia The volume engages new perspectives by asking how prior discussions on film form theory history and ideology
may be challenged by centering the colonial question rather than relegating it to the periphery To that end contributors
begin by excavating little known archives and perspectives from the colonies as a departure from a prevailing focus on
Europe s imperial histories and archives about the colonies The collection pinpoints various forms of devaluation and
misrecognition both in and beyond the region that continue to relegate local voices to the margins This pathbreaking study
on global film history advances prior scholarship by bringing together an array of established and new interdisciplinary
voices from film studies Asian studies and postcolonial studies to consider how the present is continually haunted by the
