

# WHAT IS ULTIMATE REALITY?

- If we begin with impersonal matter/energy, there are only two other factors that exist: time and chance. No one has ever demonstrated how time and chance, beginning with the impersonal, could ever account for all the complexities of the universe, including the personality of man.
- The best explanation is that the universe had a Personal beginning.

**Ultimate Reality** Béla Balogh, 2021-02-26 A bridge building engineer grown up with a strictly materialistic worldview started to question this worldview first when he met a man who had the ability to move objects by the power of his concentrated thoughts only The result of his research was astonishing If somebody told you your brain cannot generate thoughts would you believe that If somebody told you that the theory of evolution goes against the laws of physics and the whole scientific world and the media around this theory is telling you lies would you believe that Would you believe your life did not begin with your birth Well you don't have to It is quite enough if you understand it Even the possible conditions of the afterlife are known You can easily replace all you have been made to believe with sure knowledge Dear reader You might be at the threshold of your most astonishing adventure *Ultimate Reality* Rodger Paul Shute, 2020-11-27 An exploration of the differences between knowledge and belief the existence of an ultimate reality the problems of Darwinian evolutionary theory the nature of consciousness and altered states of consciousness and the possibility of the continuation of consciousness after the death of the body *The Ultimate Reality and Realization* Iqbal Kishen Taimni, 1976 Commentary on Vasugupta's *isavtra* a basic text of Kashmir Saivism an interpretation of the text as a book of occult science [Mindfulness, Now and Zen: The sceptics guide to Ultimate Reality](#) Wally Barr, 2017-02-22 This book explores how each of us knows what we know It considers claims that we see only illusions and that behind it all there is an indescribably beautiful reality both a God and a Nirvana The book goes on to explain in simple terms how these two ideas so different on the surface may not be so different at all Ranging across the centuries the book draws on the teachings of a wide variety of thinkers from vastly different cultural philosophical and religious backgrounds The message they each bring is distilled into one consistent story in which our everyday sense of reality can be thought of as a deceptive and rather pale reflection of what's really going on And although our thinking processes are seriously limited the book describes how we can all transcend these limitations and experience Ultimate Reality through the simple practice of mindfulness for mindfulness meditation offers freedom from thinking

*Brahmavidya or The Knowledge of the Ultimate Reality* D B Gangolli , This is the fifth of a series of small books under the head Satchidaananda Vaak Jyoti or The Enlightening Words of Satchidaananda All these booklets contain a free transliteration of the enlightening and immortal words and teachings of Shri Satchidaanandendra Saraswati Swamiji of revered memory found in his numerous Kannada books Those readers who do not have the facility and advantage of reading and understanding books in the Kannada language will be immensely benefited by these English publications written in simple language and style This small plan of publishing these gems of spiritual literature unrivalled in their esoteric import and teachings of the highest order and based on the pristine pure original Bhashyas of Adi Shankara was first mooted by Shri D B Gangolli a devotee and admirer of Swamiji It is an irony of our times that even that great Acharya's immaculate teachings of Atma Vidya or Self Knowledge purely based on the strength of the Upanishadic statements their veracity based

on Intuitive dialectics or ratiocination called Anubhavaanga Tarka and finally on the strength of the culmination or consummation of all those teachings in one's own Intuitive experience here and now have been distorted beyond recognition and redemption

**Pathways to The Ultimate Reality** Dan Anghel, The journey towards understanding the essence of what it means to be truly human is intrinsically tied to our perceptions of reality the nature of our self deceptions and the ethical framework within which we operate This book explores the interconnections between the concepts of Ultimate Reality Self Deception and True Humanity It posits that a True Human is someone who through a refined moral compass and an empathetic disposition transcends the need for self deception and aligns closely with the Ultimate Reality a state of existence that is often equated with the experience of Paradise The Nature of Ultimate Reality Ultimate Reality as understood in various philosophical traditions is the deepest most fundamental nature of existence that is beyond the sensory experiences and transient phenomena of life This reality is not just a backdrop for human action but is the very essence of truth that permeates every aspect of the living world It is immutable eternal and profoundly pervasive For the purpose of this discussion Ultimate Reality is not merely an abstract concept but a lived experience accessible to those who are in a state of True Humanity Self Deception as a Barrier Self deception can be seen as the psychological mechanism that individuals employ either consciously or unconsciously to avoid facing unpleasant truths about themselves and their environment This includes harboring biases rationalizing unethical behavior or maintaining an inflated sense of self While these deceptions can provide short term comfort they ultimately hinder one's journey towards becoming a True Human They distort the individual's perception of reality leading to decisions and actions that are misaligned with the core principles of empathy morality and autonomy
