The best soil with the right balance of nutrients and a healthy population of microbes will help your plants survive hardship, resist diseases, and produce healthier, more bountiful harvests, the author explains. Chapter 4 walks you through the steps needed to develop an organized farm plan. The chapter presents a convenient month-by-month overview of the farmer's year, offering a timeline and detailed instructions for sowing seeds indoors, transplanting seedlings, guarding against insects and weeds, harvesting, planting cover crops, extending the season, and developing a schedule for successive food crops. Whether you want to feed your growing family all summer long or produce enough food for a small-scale agribusiness, the information here is invaluable. This chapter also covers organic methods for harnessing the power of nature by luring beneficial insects that will help control farm and garden pests. Learn about heirlooms, hybrids, and eclectic vegetable varieties in the comprehensive directory of vegetable crops and herbs introduced in Chapter 5. Tomolonis reveals his favorite varieties, including many alluring heirlooms that have grown in popularity. Each crop description offers detailed information on soil preparation, sowing, companion planting, and battling weeds and insects without harmful chemicals. The author, a former produce manager for a national grocery chain, also includes tips for harvesting crops, prepping them for display, and bringing the goods to market. If you're looking for advice on fruits and berries, *Organic Hobby Farms* introduces new options in Chapter 6, where the author suggests ways to branch out with Asian pears, peaches, and apples, as well as nutritious blueberries, blackberries, raspberries, and strawberries. As he does in other chapters, Tomolonis explains in common terms how to choose the best varieties for your region, prepare the soil for maximum production, and deal with pests and diseases organically. *Breeding Organic Vegetables*, Northeast Organic Farming Association of New York, Bryan Connolly, Rowen White, 2011-10-31
