Talks on the Path of Occultism Annie Besant,Charles Webster Leadbeater,1926
The Theosophist ,1909 **Man and His Bodies** Annie Besant,1896 **The Revelation of Saint John** Zachary F. Lansdowne,2006-05-01 The Revelation of St John the last book of the canonical Bible has been a mystery since it first appeared No other part of the Bible has caused more controversy Traditional interpretations of the book fall into one of three categories the major prophecies that are supposed to have been fulfilled in the destruction of Jerusalem in 70 A D the historical view that Revelation predicts the course of human events from the founding of Christianity to the end of the world or the futurist view that Revelation predicts events that will occur at the end of the world It s actually none of the above writes Zachary F Lansdowne a leading expert in the field of spiritual initiation In the Introduction to this rich and complex interpretation he writes According to its own verses the Revelation is concerned with the present time which is whatever time we happen to be reading it and contains information that we can apply immediately to become blessed This is not a book about end times or Armageddon and when it might come This is a book written entirely in symbols concealing a path for early Christians and for the contemporary reader Lansdowne has applied a unique psychological method of interpretation that takes each symbol as depicting some aspect of human consciousness rather than an eternal event thus showing that the Revelation is actually a detailed instruction for the spiritual journey a map to the wakening of higher consciousness Moreover while the Revelation appears in the great lineage of Judeo Christian tradition Lansdowne shows that its instruction can be appreciated and applied to seekers from any tradition Lansdowne s line by line and verse by verse interpretation presented here in an easy to read side by side format is a manual for the true seeker who would follow teachings of Jesus as they were and are laid out rather than as they have been interpreted by theologians and biblical historians The Revelation of St John when unlocked by the key of psychological methodology is revealed to contain ideas from many diverse wisdom traditions and philosophies archangels in Judaism chakras and kundalini in Hinduism Buddhist mindfulness the redemptive power of love in Christianity and absolute standards of comparison in Platonic philosophy Zachary Lansdowne s revelatory text makes these teachings of the path to true soul initiation available to seekers from every spiritual tradition **The Theosophical**

Quarterly ,1920 *The Theosophical Review* ,1905 **Who Banged the Big Bang!** Prabha Karan,2025-02-19 Scientists physicists mathematicians theorists and other thinkers have made significant contributions to advancements in medicine technology and philosophy However many of them grapple with even bigger questions When and how did the universe begin Why does it exist What happened before the Big Bang What is the purpose of human life What occurs after death While these inquiries may seem clich they remain central to our quest for understanding This book will explore these fundamental questions on both a macrocosmic and microcosmic scale Our aim is to present established facts and methodically approach the unknown particularly the mysteries surrounding the Big Bang Infinity and Consciousness If you have considered the connection between your intellectual pursuits and these essential questions this book is for you **The Modern Review**
