The Oxford Guide to Plays Michael Patterson, 2007 Anyone with an academic, professional, amateur or recreational interest in the theatre is likely to want to look up details of particular plays, sometimes perhaps to check on the author or on when they were first performed or perhaps to see how many characters they have and whether or not they would be suitable for their theatre company or drama group to perform. The Oxford Dictionary of Plays provides essential information on the 1000 best known, best loved and most important plays in world theatre. Each entry includes details of title, author, date of composition, date of first performance, genre, setting and the composition of the cast and more. A synopsis of the plot and a brief commentary, perhaps on the context of the play or the reasons for its enduring popularity, follow. Around 80 of the most significant plays, from *The Oresteia* to *Waiting for Godot*, are dealt with in more detail. Genres covered include burlesque, comedy, farce, historical drama, kabuki, masque, melodrama, morality play, mystery play, No romantic comedy, tragicomedy, satire and tragedy. An index of characters enables the reader to locate favourite characters and trace the trajectory of major historical and legendary characters such as Iphigenia through world drama, including in plays that do not have entries in the Dictionary. An index of playwrights with dates allows the reader to find all the plays included by a particular author.

The Carnival Trilogy Wilson Harris, 2013-02-21 This volume, introduced by the author, brings together three novels first published separately. The trilogy comprises *Carnival* (1985), *The Infinite Rehearsal* (1987) and *The Four Banks of the River of Space* (1990). Novels linked by metaphors borrowed from theatre, traditional carnival itself and literary mythology, the characters make Odyssean voyages through time and space, witnessing and re-enacting the calamitous history of mankind, sometimes assuming sacrificial roles in an attempt to save modern civilisation from self-destruction. Independent on Sunday: *The Four Banks of the River of Space* is a kind of quantum Odyssey in which the association of ideas is not logical but a magical, imponderable dreaming. The dreamer is Anselm, another of Harris's alter egos like Everyman, Masters in Carnival and Robin Redbreast Glass in *The Infinite Rehearsal*. Together they represent one of the most remarkable fictional achievements in the modern canon.
