Made in America Carter Ellison, The toxic chemicals in your food water and personal care products are making you sick and the FDA knows Made in America exposes the corporate science captured regulators and billion dollar lobbying machine behind America s chemical safety crisis What if the products you trust the most are slowly killing you Every morning millions of Americans eat breakfast from boxes that contain pesticide residue feed their children cereal laced with synthetic dyes banned in Europe wash their faces with products that disrupt their hormones and drink water contaminated with chemicals that never leave the human body They do all of this while trusting the labels that say natural FDA approved and Made in America That trust has been manufactured And it is costing us our health Made in America The Toxic Truth Behind Your Favorite Brands is the most comprehensive meticulously sourced investigation into the toxic ingredients hidden inside America s most beloved consumer products the food on your grocery shelves the water flowing from your tap the personal care products in your bathroom and the cleaning supplies under your sink Drawing on decades of suppressed corporate documents peer reviewed science regulatory filings and the testimonies of whistleblowers whose careers were destroyed for telling the truth this book names names cites sources and builds an airtight case for why the United States remains the last developed nation on earth to permit hundreds of chemicals that Europe Japan and Canada banned decades ago Across seventeen rigorously researched chapters Made in America documents The food industry s deliberate engineering of addiction how flavor chemists behavioral scientists and food manufacturers worked together to design ultra processed products that override your body s satiety signals fuel the chronic disease epidemic and generate billions in pharmaceutical revenue treating the conditions they helped create The chemicals hiding in plain sight Red 40 BHA potassium bromate brominated vegetable oil phthalates parabens PFAS and

formaldehyde releasing preservatives present in products that American regulators have permitted for decades after the EU Japan and Canada determined they were unsafe The regulatory capture that allows it how the FDA EPA and USDA have been systematically defunded staffed with former industry employees and shaped by lobbyists to serve the industries they are supposed to police leaving American consumers exposed to a chemical burden that no other developed nation tolerates The communities paying the highest price from Cancer Alley in Louisiana where predominantly Black residents face cancer risks fifty times the national average to Flint Michigan where lead contaminated water was knowingly served to children while officials reassured their parents it was safe The science that was bought and buried how corporations from tobacco to Coca Cola to Monsanto funded the research that proved their products were safe silenced the scientists who found otherwise and used billion dollar lobbying machines to ensure that the laws meant to protect you were written by the industries profiting from your exposure And the blueprint for change specific achievable evidence based reforms drawn from the regulatory models of countries that have already succeeded in protecting their populations presented alongside an honest accounting of why individual consumer choice however well intentioned cannot substitute for the structural policy change that the evidence demands This is not a wellness book It is not a list of product swaps or a guide to clean living It is a reckoning documented sourced and unflinching with a system that has been engineering your illness and calling it progress for seventy years If you have ever read a food label and wondered whether someone actually checked what was in it this book is the answer you were looking for And it is worse than you feared

Consumer Behavior in Practice Eugene Y. Chan,2024-02-22 Aimed at marketing students and practitioners this book places less emphasis on theory but instead helps readers to understand why their customers are acting in a certain way or why their marketing activities or initiatives are not or are working out The text examines the relevance of consumer behavior in such marketing topics as advertising and pricing with topical chapters such as the sharing economy luxury consumer behavior and the ideological consumer Each chapter includes boxes that highlight theory in greater depth show how the concepts discuss work in actual practice and the relevance of digital and social media marketing This book will prove useful to those looking for a greater understanding of how consumer behavior provides greater insight about marketing activities
