Troika II:

Troika II Carol Gloor, Gregg Shapiro, 1991-01-01 Perceptions and Social Uses of the Ancient Greek Dialects Andreas Willi, Philomen Probert, 2025-11-14 Research on the ancient Greek dialects traditionally focusses on the grammatical description of these regional varieties But dialects are more than geographically conditioned varieties of a language in antiquity no less than in modern times dialects may assume a range of social meanings as speakers associate specific forms of speech with communicative situations and purposes that are independent of geographical location as such This volume aims to complement research on the grammars of the ancient Greek dialects by exploring sociolinguistic and socio pragmatic dimensions of dialect variation in the Greek world For example what factors determine the choice of a given variety in situations of competition between different dialects including competition between Koin Greek and regional dialects How are regional dialects represented in literature and what do ancient sources tell us about the para linguistic associations evoked by the use of a given dialect How do ancient scholars and grammarians evaluate dialect usage including unexpected dialect features in literary texts How do social and historical changes impact on the relationship between epichoric and literary dialects

Presidential Decision Making Roger B. Porter, 1982-12-30 This inside account of decision making in the White House describes the organizational challenges the President faces The Economic Policy Board was one of the most systematic and sustained attempts to organize advice for the President in recent decades The author examines the Board s deliberations over three controversial policy issues drawing on scores of interviews with cabinet officials and career civil servants

EU Foreign Policy, Transitional Justice and Mediation Laura Davis, 2014-07-11 This book analyses how the European Union translates its principles of peace and justice into policy and puts them into practice particularly in societies in or emerging from violent conflict The European Union treaty states that in its relations with the wider world the EU is to promote peace security the protection of human rights and the strict observance and the development of international law The EU is active in peace processes around the world yet its role in international peace mediation is largely ignored This book offers the first scholarly analysis of how the EU engages in peace processes and justice for human rights violations focussing on the point where mediation and transitional justice intersect Drawing on extensive fieldwork the book includes case studies of how the EU sought to promote peace and justice in the Democratic Republic of Congo DRC how it supports international justice through the International Criminal Court and a model of the EU as a mediator These provide an evidence base for policy makers and practitioners as well as strong empirical contributions to theory The book addresses whether and how the EU pursues its principles of both peace and justice in conflict zones where in practice these principles may be in conflict and the implications of these findings for understanding EU foreign policy and the EU as a security actor This book will be of much interest to students of EU foreign policy transitional justice peace and conflict studies and security studies

Exhibiting Abstraction Christina Bartosch, 2025-05-20 The time around 1910 has entered art history as the

moment when abstraction was invented However where and when works of non figurative art became present in the public eye has been afforded little attention to date Exhibiting Abstraction is the first publication to be devoted entirely to the presentation of abstract art between 1908 and 1915 It uncovers strategies for the dissemination of early abstract painting in exhibitions with the aid of a register of exhibited works by Giacomo Balla Umberto Boccioni Wassily Kandinsky Frantisek Kupka Kazimir Malevich Piet Mondrian and Francis Picabia shown to the public within this period and an analysis of the artists exhibition activities The key role played by art exhibitions in the works introduction and dissemination is highlighted

Matusow,1998 Historian Allen J Matusow now presents the first comprehensive history of Nixon s political economy He depicts a president who disliked the subject but was forced to pay attention or lose his dream of effecting a historic realignment of the political parties in America The study derives its authority from extensive archival research in Nixon s presidential papers including notes by Haldeman and Ehrlichman of crucial conversations in the Oval Office Matusow shows the poverty of contemporary economic theory Nixon s willingness to sacrifice the world economy for his domestic political purposes and his desperate attempts to find something anything that might work Lurching from one set of policies to another Matusow argues Nixon achieved only illusory successes that ultimately brought on a decade of economic disaster
