Trophy Buck:

Trophy Buck Elby Dubose, 2005-08-01 I have read so many books about hunting but most of them are about Canada and Michigan or somewhere up North where it snows most of deer season So I have kept records for the last 35 years About hunting without the big money or being a Blue blood and left thousands of acres of land So I have thought that I should turn my notes into a book and tell it like it is The Truth My friend Joey Tisdale and Scottie Burroughs have hunted together forever They have seen me hunt and they had hunted with others before and they even questioned my way I would have 60 acres that I went door to door asking for permission to hunt 40 acres 20 acres and so on So I had to learn fast and learn my way that this year I would have a place to hunt for the next year or I might not So I had to learn quick and with the lack of money and my own land or land from year to year Thus my book **DOING IT THE HARD WAY** is for those that don't hunt because of these reasons That's what my book explains Don't ever give up you can do it even if you don't have a lot of money Be in the woods enjoy the peace and quiet and solitude even if you don't get him this time You've enjoyed mother nature and she's quite a lady The statement of my book is true and the best way I know to get that Trophy Buck is to do what I have explained in the book It has been tried and tested for 35 years You be the Judge This book is about hunting South Carolina and that's hard without big money God Bless Us All and the U S A **Hunting Superbucks** Kathy Etling, 2001 How to outwit the smarter older and bigger trophy deer **Mapping Trophy Bucks** Brad Herndon, 2003-09-17 Using Topographic Maps to Find Deer Topographic maps and aerial photos can lead you right to the biggest bucks you've ever seen You just have to know how to use them Brad Herndon takes the mystery out of finding deer with maps Through years of dedicated hunting and careful study of maps and photos Herndon has perfected the use of maps to find the routes deer travel And once you know where the deer will be headed you can establish the perfect ambush site Maps are often the forgotten link in scouting prime deer habitat Yet because they show you all the hills gullies rivers and ridges you can learn the lay of the land without walking mile after unproductive mile Maps won't eliminate the need to get in the woods but they will tell the best places to start your search for the buck of your dreams Herndon also shows hunters how to use the latest Internet and computer technology to personalize any map Mark your stand locations the locations of deer sign even note the best possible wind direction to make your hunt a success If you hunt deer let *Mapping Trophy Bucks* lead you right to where the big boys hide The rest is up to you **Hunting Trophy Deer** John Wootters, 1997 The revised edition of the definitive manual for identifying scouting and hunting the deer of a lifetime *Still-Hunting Trophy Whitetails* Bill Vaznis, 2007-08-02 Introduces hunters to the lost art of stalking trophy bucks and provides proven strategies for taking big whitetails on the move with bow and arrow rifle shotgun and muzzleloader Explains the essential techniques of playing the wind staying silent and calling on the prowl Takes the mystery out of still hunting new property clear cuts and bedding areas Anthropologists tell us that primitive man evolved in part because of his abilities to still hunt moving silently and methodically in pursuit of big game
