Trouble With Marx:

The Trouble with Marx David McCord Wright, 1967 **Fundamental Problems of Marxism** Georgii Valentinovich Plekhanov, 1928 *Karl Marx's Social and Political Thought* Bob Jessop, Russell Wheatley, 1999 **A Summary of Marx's "Capital"** A. P. Hazell, 1907 **Historical Materialism and the Economics of Karl Marx** Benedetto Croce, 1914 It is often said that it is the business of philosophy to examine and criticise the assumptions of the sciences and philosophy claims that in this work it is not an unnecessary meddler stepping in where it is not wanted For time and again for want of philosophical criticism the sciences have overstepped their bounds and produced confusion and contradiction **Marx's Anti-Practical Philosophy** Felipe Tauber, 2026-01-01 This book sets out a new reading of the early Marx This book argues that during the period of his first critique of political economy Marx developed a way of critique that targets social contradictions themselves by making them explicit rather than grounding judgment in prior normative principles What Marx consolidated in this period was an implicit critique of what we now call practical philosophy and this book spells out the terms on which that critique unfolds The opening chapters recast Marx's concept of alienation of labor as an ambiguous one and reframe ideology as what occurs when philosophy detaches from social and historical life process Building on this the book traces the young Marx's move toward a critique of political economy showing how alienation of labor structure modern society and generate contradictions It then addresses a central question for critical social theory since the nineteenth century how should one criticize a social contradiction The answer advanced here is that compelling critique does not rest on any kind of normative grounding it exposes and clarifies the contradictory dynamics of social life as contradictory The concluding chapters revisit Marx's engagements with Hegel 1843 and with post Hegelian philosophy from 1845 onward to show why practical philosophy are not the right way to criticize contradiction Breathing new life into the concepts of alienation and ideology Tauber argues that Marx's critique of capitalism forgoes the tools of traditional philosophy and justifies revolution instead on the proletariat's empirical needs Frederick Neuhouser Columbia University **Marx's Theory of Money** F. Moseley, 2004-12-07 This book provides a contemporary assessment of Marx's theory of money This theory is often praised as one of Marx's greatest achievements especially when compared with either classical or neoclassical economics On the other hand Marx's theory of money has also been severely criticized especially that it seems to require that money be a produced commodity The contributors to the volume provide a wide ranging and in depth appraisal of the strengths and weaknesses of Marx's theory of money compared to other theories of money **Philosophy of Social Science** Alexander Rosenberg, 2018-04-17 Philosophy of Social Science provides a tightly argued yet accessible introduction to the philosophical foundations of the human sciences including economics anthropology sociology political science psychology history and the disciplines emerging at the intersections of these subjects with biology Philosophy is unavoidable for social scientists because the choices they make in answering questions in their disciplines force them to take sides on

philosophical matters Conversely the philosophy of social science is equally necessary for philosophers since the social and behavior sciences must inform their understanding of human action norms and social institutions The fifth edition retains from previous editions an illuminating interpretation of the enduring relations between the social sciences and philosophy and reflects on developments in social research over the past two decades that have informed and renewed debate in the philosophy of social science An expanded discussion of philosophical anthropology and modern and postmodern critical theory is new for this edition Karl Marx's Economics John Cunningham Wood,2004-11 **Karl Marx** John Spargo,1910

Marxist Library ,1928 **Karl Marx** Otto Rühle,1929 *Karl Marx's Life, Ideas, and Influences* Shaibal Gupta,Marcello Musto,Babak Amini,2019-09-28 Since the latest crisis of capitalism broke out in 2008 Marx has been back in fashion and sometimes it seems that his ideas have never been as topical or as commanding of respect and interest as they are today This edited collection arises from one of the largest international conferences dedicated to the bicentenary of Marx's birth The volume contains 16 chapters authored by globally renowned scholars and is divided into two parts I On the Critique of Politics II On the Critique of Political Economy These contributions from multiple academic disciplines offer diverse perspectives on why Marx is still so relevant for our times and make this book a source of great appeal for both expert scholars of Marx as well as students and general readers who are approaching his theories for the first time **The Crusader** ,1922 *Trade Unionism and Labor Problems* John Rogers Commons,1905 **Annual Report** New York (State) Bureau of Mediation and Arbitration,1894 *Karl Marx's Grundrisse* , *Socialism* Correa Moylan Walsh,1917 **Mr. Marx's Secret** Edward Phillips Oppenheim,1909 **Annual Report of the Board of Mediation and Arbitration of the State of New York** New York (State). Board of Mediation and Arbitration,1894
