Western Theological Seminary Western Theological Seminary (Evanston, Ill.),1929   Indigenous Theology and the Western Worldview (Acadia Studies in Bible and Theology) Randy S. Woodley,2022-04-19 This volume by a Cherokee teacher former pastor missiologist and historian brings Indigenous theology into conversation with Western approaches to history and theology Written in an accessible conversational style that incorporates numerous stories and questions this book exposes the weaknesses of a Western worldview through a personal engagement with Indigenous theology Randy Woodley critiques the worldview that undergirds the North American church by dismantling assumptions regarding early North American histories and civilizations offering a comparative analysis of worldviews and demonstrating a decolonized approach to Christian theology Woodley explains that Western theology has settled for a particular view of God and has perpetuated that basic view for hundreds of years but Indigenous theology originates from a completely different DNA Instead of beginning with God created humanity it begins with God created place Instead of emphasizing individualism it emphasizes a corporateness that encompasses the whole community of creation And instead of being about the next world it is about the tangibility of our lived experiences in this present world The book encourages readers to reject the many problematic aspects of the Western worldview and to convert to a worldview that is closer to that of both Indigenous traditions and Jesus

Waiting and Being Joshua B. Davis,2013-10-01 The problem of creation and grace has a long history of contention within Protestant and Catholic theology involving not only internecine conflict within the traditions but fueling as well ecumenical debates that have continued a dogmatic divide This volume traces out that conflict in modern Catholic and Protestant dogmatics and provides a historical genealogy that situates the origin of the problem within different emphases in the thought of St Augustine   *Indigenous Theology and the Western Worldview* Randy S. Woodley,2022-04-19 This volume by a Cherokee teacher former pastor missiologist and historian brings Indigenous theology into conversation with Western approaches to history and theology Written in an accessible conversational style that incorporates numerous stories and questions this book exposes the weaknesses of a Western worldview through a personal engagement with Indigenous theology Randy Woodley critiques the worldview that undergirds the North American church by dismantling assumptions regarding early North American histories and civilizations offering a comparative analysis of worldviews and demonstrating a decolonized approach to Christian theology Woodley explains that Western theology has settled for a particular view of God and has perpetuated that basic view for hundreds of years but Indigenous theology originates from a completely different DNA Instead of beginning with God created humanity it begins with God created place Instead of emphasizing individualism it emphasizes a corporateness that encompasses the whole community of creation And instead of being about the next world it is about the tangibility of our lived experiences in this present world The book encourages readers to reject the many problematic aspects of the Western worldview and to convert to a worldview that is closer to that of Jesus

The Perception of Christianity as a Rational Religion in Singapore Clive S. Chin,2017-03-23 This book evaluates the common criticism that Christianity in Asia is westernized Since the 1980s Asian evangelical theologians and missiologists argue that the intrusion of Western theology is responsible for the Western and hence alien expressions of Christianity in Asia Yet in Singapore the number of Christians has increased over the last few decades Empirical evidence demonstrates that younger Chinese Singaporeans convert from Buddhism or Taoism to Christianity partly because they perceive it as a rational religion over Buddhism or Taoism which are viewed as irrational or superstitious Not only do many converts favor Christianity as a rational religion but they do not regard Christianity as a Western religion at the point of their conversion What accounts for those recent developments This study explores the processes of modernization and globalization as important factors impacting religious change in Singapore Personal contextual and structural elements actually influence one s religion of choice In facilitating effective mission one must qualify the use of the categories Asian and Western because religious and cultural boundaries overlap What matters most in missiology is discerning how the gospel of Jesus Christ engages the self understanding and lived realities of ethnic and religious others in diverse cultural settings *Evangelical Ethics* David P. Gushee,Isaac B. Sharp,2015-08-24 Just as it is impossible to understand the American religious landscape without some familiarity with evangelicalism one cannot grasp the shape of contemporary Christian ethics without knowing the contributions of evangelical Protestants This newest addition to the Library of Theological Ethics series begins by examining the core dynamic with which all evangelical ethics grapples belief in an authoritative inspired and unchanging biblical text on the one hand and engagement with a rapidly evolving and increasingly post Christian culture on the other It explores the different roles that scholars and popular figures have played in forming evangelicals understandings of Christian ethics And it draws together the contributions of both senior and emerging figures in painting a portrait of this diverse vibrant and challenging theological and ethical tradition This book represents the breadth of evangelical ethical voices demonstrating that evangelical ethics involves nuance and theological insight that far transcend any political agenda Contributors include David P Gushee Carl F H Henry Jennifer McBride Stephen Charles Mott William E Pannell John Perkins Soong Chan Rah Gabriel Salguero Francis Schaeffer Ron Sider Helene Slessarev Jamir Glen H Stassen Eldin Villafa e Allen Verhey Jim Wallis Nicholas Wolterstorff and John Howard Yoder The Library of Theological Ethics series focuses on what it means to think theologically and ethically It presents a selection of important and otherwise unavailable texts English language texts and translations that have fallen out of print new translations and collections of significant statements about

problems and themes of special importance in an easily accessible form This series enables sustained dialogue on new and classic works in the field **An Ethiopian Reading of the Bible** Keong-Sang An,2016-06-30 A ground breaking study of the interpretation of scripture in a distinctive Ethiopian framework revealing both the richness of the tradition and an insight into the process of contextualisation in non Western churches *An Ethiopian Reading of the Bible* Keon-Sang An,2015-10-01 This book explores the biblical interpretation of the Ethiopian Orthodox Tewahido Church EOTC In doing so it illuminates the interpretation of the Bible in a particular historical and cultural context and presents a compelling example of the contextual nature of biblical interpretation Those who visit Ethiopia experience its unique spirituality which is significantly informed by the presence of the EOTC The EOTC has existed from earliest years of the Christian church It has also developed and maintained its own ecclesiastic tradition in the Ethiopian context and has its own distinctive way of reading the Bible It is noteworthy particularly in the African context that it has its own commentaries on the Scriptures which continue to serve as a vital tradition in the EOTC s interpretation of the Bible This is evident in the contemporary hermeneutics and sermons of EOTC preachers In its comprehensive consideration of the EOTC s past and present this book examines the interplay between tradition and context in biblical interpretation and contributes to current biblical scholarship
