The Structure Of Awareness:

The Structure of Awareness Vladimir A. Lefebvre,1977 **The Structure of Awareness** Thomas C. Oden,1969 What does it mean to be aware awake to reality How is awareness extended and deepened And what are the results of adequate and inadequate awareness In this provocative interpretation Dr Oden presents and experiment in theological and humanistic study Human perception and experience are seen in seven dimensions or relationships three are temporal categories and four are categories of being Creative approaches to man s predicaments offer possible resolutions in terms of authentic existence Dr Oden s effort to understand man s salvation or self actualization in secular categories is addressed to those who live in a passionate quest for deepened awareness who hunger to touch and taste human existence more intimately and who delight in the celebration of the now Publisher *The Structure of Awareness* ,1969 **Structure of Awareness** Aleksandr Vladimirovič Lefevr,1977-04-01 *The structure of awareness (Konfliktujušćie struktury, engl.)* Vladimir A. Lefebvre,1977-04-01 Bilingual Language Development: The Role of Dominance Cornelia Hamann,Esther Rinke,Dobrinka Genevska-Hanke,2019-09-20 It has long been established that bilingual speakers are rarely balanced in their languages so that one language is dominant The contributions to the Research Topic Bilingual Language Development The Role of Dominance focus on the potential effects of language dominance on the competence and processing of bilinguals covering a large variety of language combinations and domains Important aspects of such work are the interplay of L1 maintenance attrition and possible L2 dominance the direction of cross linguistic influence CLI or code mixing as well as the effects of bilingualism on cognitive development each addressed in several contributions However such research presupposes a definition of dominance which is far from being settled This gives rise to considerable differences in the operationalization of the concept across studies The studies in this Research Topic present a multifaceted picture of the role of language dominance for L1 maintenance attrition L2 development and CLI Though a unified story cannot emerge for such a complex subject interesting new venues are explored including the impact of dominance shift during L1 re exposure comparisons of different types of bilingual groups or operationalization of dominance through experiential measures The variety of approaches and results is in part owed to the many language combinations studied and the fact that bilingual children adults and atypical speakers are investigated This diversity constitutes the interest of this Research Topic *Reading Development and Difficulties* David A.
