The Twelve Powers of Man is a metaphysical analysis of the twelve expressions of the divine power inherent in each of us Expressions such as love faith strength zeal and imagination are discussed Jesus prophesied the advent of a race of men who would sit with Him on twelve thrones judging the twelve tribes of Israel This book explains the meaning of this mystical reference what and where the twelve thrones are and what attainments are necessary by man before he can follow Jesus in this phase of his regeneration Regeneration follows generation in the development of man Generation sustains and perpetuates the human regeneration unfolds and glorifies the divine It is not expected that beginners in the study of metaphysical Christianity will understand this book It deals with forces that function below and above the field of the conscious mind The average religious thinker knows nothing about the subconscious mind and very little about the superconscious this book presupposes a working knowledge of both This book aims to clear up the mystery that ever envelops the advent life and death of Jesus To the superficial reader of the Gospels His life was a tragedy and so far as concerns the kingly reign that was prophesied it was a failure Yet those who understand the subtlety of the soul and supremacy of Spirit see that Jesus was conqueror of a psychic force that was destroying the human race
