 Rose Army,1996-06 *Encounter* ,1978 **The Time of AIDS** Gilbert Herdt,Shirley Lindenbaum,1992-01-29 The widespread tragedy of the AIDS epidemic is forcing social scientists to change the way they think about and study subgroups within the majority culture How is the concept of culture relevant to the study of AIDS How can social science methods be used to uncover the epidemiology of this deadly disease And how can social scientists deploy what they learn to help solve the problems posed by AIDS The Time of AIDS explores and provides provocative insights on these three critical issues By examining research conducted with various cultural groups and in different countries the authors offer insight on how to identify the distinct way different communities respond to the threat of this disease These studies demonstrate that a single theory and method will not capture the importance of the AIDS epidemic but a close look at the culture and psychology of a society can inspire more effective ways of education intervention and arrest of the transmission of the virus Researchers and practitioners in anthropology psychology sociology and nursing will benefit from this enlightening volume

Liberation & Disillusionment John Michael Clark,1987 **Paragraph** ,2003 *Beyond the Lavender Lexicon* William Leap,1995 In this collection of essays a group of linguists and social scientists examines specific instances of language use and centers its analysis around the speakers writers and their contributions to message exchange within a setting These prominent scholars create a basis for a bold exploration of homosexual dialogue as an independently developed linguistic construction by arguing in support of distinctively constructed lesbian and gay languages
