Visual Science Telecommunications:

Storytelling to Accelerate Climate Solutions Emily Coren, Hua Wang, 2024-05-27 The climate is changing faster than our cultural practices are adapting to it This Open Access volume co edited by Emily Coren a science communicator and Hua Wang a communication scientist presents a survey of the latest in agency focused climate storytelling Together practitioners and scholars across different fields shared their knowledge experience and insight about how stories can be designed and told to engage enable and empower individuals and communities in climate communication and action You will learn a wide range of narrative strategies and exemplary applications of climate storytelling in terms of professional practices e g education literature journalism popular media genres and formats e g drama comedy fiction media platforms e g television radio mobile and communication modalities e g text visual audio multisensory Entertainment education has been proven over decades to be an effective tool for social and behavior change in the public health sphere and has not yet been applied at scale to the massive ongoing climate related disasters that we need to solve now fast There is an urgent need to rapidly apply and adapt public engagement tools for climate communication to speed up our response times for climate change mitigation and adaptation This book takes a snapshot of where climate storytelling is currently at describes where it fits within a climate communication landscape and supports the next steps of its development It facilitates the of creation climate storytelling efficiently by sharing and amplifying what is working well and building collaborations between practitioners and researchers This is an open access book *Exploring the Role of Visualization in Climate Change Communication - an Audience Perspective* Anne Gammelgaard Ballantyne, 2018-05-08 Climate change communication is a topical and relevant issue and it is widely acknowledged that public communication about causes impacts and action alternatives is integral to addressing the challenges of the changing climate Climate visualization concerns the communication of climate information and data through the use of different information technologies and different modes of visual representation In the context of climate change communication climate visualization is highlighted as a potential way of increasing public engagement with climate change In particular developments within information technology have provided significant advancements that are claimed to be transformative in engaging lay audiences with issues relating to the mitigation of and adaptation to climate change Nevertheless there is a lack of research exploring climate visualization from an audience perspective This thesis addresses this gap The overarching aim is thus to explore the role of climate visualization in climate change communication from an audience perspective focusing specifically on how lay audiences make meaning of climate change as represented in two examples of climate visualization In addition the thesis discusses the potential contributions and or limitations of climate visualization from a communication perspective Based on a social semiotic theoretical framework this thesis employs focus group interviews to study participants meaning making related to two cases of climate visualization a dome theatre movie developed for Swedish high school students with the aim of encouraging reflection on climate change causes impacts and

mitigation alternatives and a web based tool for climate change adaptation developed to assist Nordic homeowners in adapting to the local impacts of climate change The results of this thesis show that climate visualization can help audiences concretize otherwise abstract aspects of climate change and that the localized focus can make climate change appear more personally relevant and interesting for targeted audiences Nevertheless despite these communicative qualities the analyses also show that participants interpretations are shaped by their preconceptions of climate change as a global and distant issue to be solved by other actors such as national governments or through international policy negotiations Although climate visualization can enhance a sense of proximity with climate change the localization of climate risk can also lead to participants downplaying the significance of climate impacts In addition despite the intentions of inducing a sense of agency in both cases of climate visualization participants critically negotiated messages concerning their roles as individuals in mitigating or adapting to climate change and assigned this responsibility onto other actors These findings show that although climate visualization presents certain communicative qualities it is not a panacea for engaging lay audiences with climate change This also underlines the importance of considering cultural and social aspects of the communicative event when studying and developing climate visualization tools as a means of communication

Kommunikation kring klimat förändringar är ett aktuellt och relevant mne och många bedömare anser att kommunikation kring orsaker effekter och tågsalternativ är en viktig del i arbetet med att mota klimatutmaningarna Klimatvisualisering är en process för att skildra klimatinformation och klimatdata med hjälp av olika tekniker och metoder för visuell framställning I forskningslitteraturen om klimatkommunikation lyfts visualisering fram som ett möjligt sätt att öka allmänhetens engagemang i klimatfrågan I synnerhet har utvecklingen inom informationsteknik lett till betydande framsteg som kan ses som omvälvande när det gäller att engagera lekman i frågor som rör utsläppsminskningar och klimatanpassning Det råder dock brist på forskning om klimatvisualisering ur ett mottagarperspektiv Denna avhandling adresserar denna kunskapslucka Det övergripande syftet är således att utforska visualiseringens roller i klimatkommunikation ur ett mottagarperspektiv med särskilt fokus på hur lekman tolkar innebörden av klimatförändringar såsom de representeras i tv exempel på klimatvisualisering Avhandlingen behandlar även klimatvisualiseringens möjliga bidrag och eller begränsningar ur ett kommunikationsperspektiv Med utgångspunkt i ett teoretiskt ramverk som inspirerats av socialsemiotiska teorier genomfördes fokusgruppsstudier för att studera deltagarnas meningsskapande i relation till tv exempel på klimatvisualisering en film som visas i en domsteater framtagen för svenska gymnasieelever med möjligheten att uppmuntra till reflektion kring klimatförändringarnas orsaker effekter och alternativ för utsläppsminskning samt ett webbaserat verktyg för klimatanpassning som utvecklats för att stödja husägare i Norden att anpassa sig till klimatförändringarnas lokala effekter Resultaten av denna avhandling visar att klimatvisualisering kan stödja mottagarna att konkretisera annars abstrakta aspekter av klimatförändringar och att ett lokalt fokus kan för klimatförändringarna att framstå som mer personligt relevanta och intressanta för målgruppen Dock visar analyserna även trots dessa kommunikativa kvaliteter att

deltagarnas tolkningar formas av deras erfarenheter om klimatförändringar som ett globalt och avlägset problem som ska lösas av andra aktörer så som nationella regeringar eller genom internationella politiska förhandlingar. Men om klimatvisualisering kan förstärka känslan av närhet till klimatförändringar kan lokaliseringen av klimatriskerna även leda till att deltagare tonar ned de lokala klimatriskernas betydelse. Dessutom trots att både fallen av klimatvisualisering avsevärt skapa en känsla av att kunna påverka blev ansvaret för klimatförändringar fortfarande kritiskt förhandlat för när deltagarnas själva ansvar för att hantera klimatutmaningarna till andra aktörer. Dessa resultat visar att klimatvisualisering visserligen har vissa kommunikativa kvaliteter men inte någon egentlig för klimatkommunikation. Detta understryker även vikten av att ta hänsyn till kulturella och sociala aspekter av den kommunikativa handlingen när man studerar och utvecklar verktyg för klimatvisualisering.

Signal, 1993 **Telecommunications**, 1982 **Visual Communications Systems** Arun N. Netravali, Birendra Prasada, 1989 Very Good No Highlights or Markup all pages are intact [Handbook of Adaptive Optics](#) Enrique Josua Fernandez, 2024-09-02 Adaptive Optics AO is a technique allowing the manipulation of the wavefront of the light benefitting multiple fields like Microscopy Optical Coherence Tomography Visual Testing Optical Communications and Astronomical Optics just to mention some examples Handbook of Adaptive Optics contains a complete picture of the technique from the foundations to the most promising applications of AO in a variety of fields Within this book the reader will find different sections including a complete and rigorous introduction to the foundation of the technique from a general perspective providing the reader a solid basis in AO with particular emphasis on wavefront sensing methods and aberration correctors It also discusses state of the art applications and industrial usages with their particular constraints and methods to incorporate AO like in some imaging techniques of importance for Biomedical Optics in Astronomy and for Visual Optics Furthermore it explores discussions of the future of AO together with some of the most exciting emerging applications including quantum technologies scattering correction space telescopes and discrete AO among others This timely handbook will be an important companion to those starting in the field but it will also serve as a comprehensive resource for researchers and experts who are already working with AO
