Tense Sagas Debra L. McCall, 2001 Scientist say that California will sink into the ocean in the future The future is now and Calamity will finish the job Crack does not only affect the poor it gets the upper class too Some may not live to tell the tale When a lonely woman dreams of love she will never believe that she has a ghost of a chance Sometimes people's perceptions of others can cause chaos The truth always pays in the end A country has been ruled by men for 500 years until now The country will never be the same again

New Studies in the Manuscript Tradition of Njáls saga Svanhildur Óskarsdóttir, Emily Lethbridge, 2018-10-22 Njáls saga is the best known and most highly regarded of all medieval Icelandic sagas and it occupies a special place in Icelandic cultural history The manuscript tradition is exceptionally rich and extensive The oldest extant manuscripts date to only a couple of decades after the saga's composition in the late 13th century and the saga was subsequently copied by hand continuously up until the 20th century even alongside the circulation of printed text editions in latter centuries The manuscript corpus as a whole has great socio-historical value showcasing the myriad ways in which generations of Icelanders interpreted the saga and took an active part in its transmission the manuscripts are also valuable sources for evidence of linguistic change and other phenomena The essays in this volume present new research and a range of interdisciplinary perspectives on the Njáls saga manuscripts Many of the authors took part in the international research project The Variance of Njáls saga which was funded by the Icelandic Research Council from 2011-2013

The Routledge Research Companion to the Medieval Icelandic Sagas Ármann Jakobsson, Sverrir Jakobsson, 2017-02-17 The last fifty years have seen a significant change in the focus of saga studies from a preoccupation with origins and development to a renewed interest in other topics such as the nature of the sagas and their value as sources to medieval ideologies and mentalities The Routledge Research Companion to the Medieval Icelandic Sagas presents a detailed interdisciplinary examination of saga scholarship over the last fifty years sometimes juxtaposing it with earlier views and examining the sagas both as works of art and as source materials This volume will be of interest to Old Norse and medieval Scandinavian scholars and accessible to medievalists in general
