The Formless Self

Stefan Ahmann

The Formless Self:

The Formless Self Joan Stambaugh, 1999-01-01 Gathering and interpreting material that is not readily available elsewhere this book discusses the thought of the Japanese Buddhist philosophers Dogen Hisamatsu and Nishitani Stambaugh develops ideas about the self culminating in the concept of the Formless Self as formulated by Hisamatsu in his book *The Fullness of Nothingness* and the essay *The Characteristics of Oriental Nothingness* and further explicated by Nishitani in his book *Religion and Nothingness* These works show that Oriental nothingness has nothing to do with the nineteenth and twentieth century Western concept of nihilism Instead it is a positive phenomenon enabling things to be **The Formless Self** Stefan Ahmann, 2024-12-28 Our lives are out of balance we have forgotten the non dual the Eternal Basically we have become spiritual seekers because something about our lives feels off But we often fail to see to what extent our personal problems are also a symptom of a more general societal dysfunction In this book I try to explain why we as society and as humanity have become so lamentably one sided and disconnected I also describe in some detail how we can reverse this self alienation which is the main reason for our current polycrisis Paradoxically we can only express our individuality fully and creatively when we are also aware of our true spiritual Nature Indeed we can only allow and encourage others to flourish as individuals when we see everybody as a unique expression of the One Self This book is about the integration of the relative the limited form mind and the Absolute the Unlimited Life Being However it is only with non dual awakening that this integration process can really pick up momentum We need to support each other in this all important quest for truth love and wholeness Table of Contents Integration the Way of Mastery The personal and the Divine Discovering your true Self Beyond identity and the person The ego and you Giving up brings harmony and equilibrium Divine Presence and personal story The spiritual meaning of your personal destiny Your cross is the world s cross The bigger picture Meditation and self inquiry You are not the mind Meditation distraction and depression Your freedom Be who you are allow everything Investigating reality There is no hope for the ego The desire for truth alone I AM Spiritual skills and pitfalls Attention and intention Noticing transparency and formlessness Suffering and happiness Why healing and fixing can be traps The physical body and the energy body Restoring balance Be realistic and believe in miracles Spi **Zen and the Modern World** Masao Abe, 2003-08-31 Written by one of Japan s foremost contemporary thinkers and scholars *Zen and the Modern World* is the third in a series of essay collections on Zen Buddhism as seen in the context of Western thought As a leading representative of the Kyoto School which has sought a critical comparative linking of Eastern and Western thought Abe has based his approach on constructive mutually respectful yet critical intellectual interaction and dialogue with some of the leading figures in the West including Paul Tillich Hans K ng and Eugene Borowitz as well as dozens of colleagues students and disciples Together with the previous volumes this work examines and exemplifies some key features of Kyoto School thought While the essays presented here should be read in light of the socio political criticism that has since been lodged against the

Kyoto School and more particularly its founder Nishida Kitar most of them were written prior to the recent discussions and focus on issues of comparative philosophy and religious thought outside the contours of the debate This should not however limit their approach to the earlier historical context

Global Perspectives on Spirituality and Education Jacqueline Watson, Marian de Souza, Ann Trousdale, 2013-12-04 In recent decades and around the world much attention has been given to the role of spirituality in the education of children and young people While educationalists share many common goals and values in nurturing the spiritual lives of children and young people national and regional cultures religions and politics have impacted on the approaches scholars and practitioners have adopted in their investigations and practices The different contexts across nations and regions mean that educators face quite distinct conditions in which to frame their approaches to spiritual education and research and the nature and impact of these differences is not yet understood This book brings together thinkers from around the globe and sets them the task of explaining how their research on children s spirituality and education has been shaped by the historical cultural religious and political contexts of the geographic region in which they work The book presents contributions in three sections Europe and Israel Australasia and The Americas and concludes with a chapter highlighting what is common and what is contextually unique about global approaches to spirituality and education

The Dao Companion to Japanese Buddhist Philosophy Gereon Kopf, 2019-06-03 The volume introduces the central themes in and the main figures of Japanese Buddhist philosophy It will have two sections one that discusses general topics relevant to Japanese Buddhist philosophy and one that reads the work of the main Japanese Buddhist philosophers in the context of comparative philosophy It combines basic information with cutting edge scholarship considering recent publications in Japanese Chinese English and other European languages As such it will be an invaluable tool for professors teaching courses in Asian and global philosophy undergraduate and graduate students as well as the people generally interested in philosophy and or Buddhism

The Formless Self Miwa Neishi, 2016 The Formless Self is my M F A thesis exhibition that I presented the contradictions that arise while negotiating the encounters between Japanese artistic techniques and forms of expression which are rooted in its traditions and American artistic techniques and forms of expression which are more liberal and free from traditions Using metal clay drawing and mixed media I will seek to create connections between figurative and abstract forms of expression I intend to make objects out of combining figurative and abstract forms and clay faces that represent the hidden conflict that

arises from the multiple intersection s of American and Japanese ways of expression in art The everyday struggle of comparing definitions of expressions from my home country and from being in a foreign country has inspired me to create a merging point of the negative and the positive I am driven to connect the language of diverse materials in both two dimensional and three dimensional forms to metaphorically and poetically speak to the ambiguity of definitions in expression
