Underground Hero:

The Beat Generation and the Popular Novel in the United States, 1945-1970 Thomas Newhouse, 2000-06-16 The Beat Generation that emerged after World War II and reached its zenith in the 1960s represented an era of new perspectives. The questioning anti-establishment view of the world prevalent among the various members of the Beat Movement found its voice in both novels and poetry. The novels, especially or what might be called underground narratives, were a driving force within the literary social and cultural revolution that characterized the Beats. This study of the American novel during that era presents the forerunners of the literary tradition of the Beats and examines the major genres of the Beat novel: the juvenile delinquent novel, the self-discovering novel of individuality, the gay novel, the drug novel, the new journalism, and novels taking on topics of defiance and submission. From novels that have found a mainstream acceptance like *The Blackboard Jungle*, *The Electric Kool Aid Acid Test*, and *On the Road* to lesser-known works like *Go Young Adam* and *Flee the Angry Strangers*, numerous representative works are examined in depth. Also included is a chronology of underground narratives showing the development of these novels from their early twentieth-century antecedents to current works.

Funny Dostoevsky Lynn Ellen Patyk, Irina Erman, 2024-06-13 Tapping into the emergence of scholarly comedy studies since the 2000s, this collection brings new perspectives to bear on the Dostoevskian light side. *Funny Dostoevsky* demonstrates how and why Dostoevsky is one of the most humorous 19th-century authors, even as he plumbs the depths of the human psyche and the darkest facets of European modernity. The authors go beyond the more traditional categories of humor, such as satire, parody, and the carnivalesque, to apply unique lenses to their readings of Dostoevsky. These include cinematic slapstick and the body in *Crime and Punishment*, the affective turn, and hilarious and deadly impatience in *Demons* and ontological jokes in *Notes from Underground* and *The Idiot*. The authors, coincidentally all women, including some of the most established scholars in the field, alongside up and comers, address gender and the marginalization of comedy, culminating in a chapter on Dostoevsky's funny and furious women and explore the intersections of gender and humor in literary and culture studies. *Funny Dostoevsky* applies some of the latest findings on humor and laughter to his writing, while comparative chapters bring Dostoevsky's humor into conjunction with other popular works, such as Chaplin's *Modern Times* and Lin-Manuel Miranda's *Hamilton*. Written with a verve and wit that Dostoevsky would appreciate, this boldly original volume illuminates how humor and comedy in his works operate as vehicles of deconstruction, pleasure, play, and transcendence.

Reaction Formations: Dialogism, Ideology, and Capitalist Culture Jonathan Hall, 2019-08-05 Bakhtin and Voloshinov argued that dialogue is the intersubjective basis of consciousness and of the creativity which makes historical changes in consciousness possible. The multiple dialogical relationships give every subject who has developed through internalising them the potential to distance him or herself from them. Consciousness is therefore an unfinalised process, always open to a possible future which would not merely reiterate the past. But this book explores its corollary: The relative

openness is a field of conflict where rival discourses struggle for hegemony by subordinating or eliminating their rivals That is how the unconscious is created out of socio historical conflicts Hegemony is always incomplete because there is always the possibility of a return of its repressed rivals in new combinations

The Anti-hero Lilian R. Furst, James Darrell Wilson, 1976

Bakhtinian Thought Simon Dentith, 2003-09-02 First published in 1994 Mikhail Bakhtin and the writers associated with him have come to be recognised as writers of trail blazing importance Working in the extraordinarily difficult conditions of Stalinist Russia they nevertheless produced a body of writing in literary theory linguistics the history of the novel philosophy and what Bakhtin called philosophical anthropology which continues to inspire and challenge people working in a number of different areas Above all Bakhtin insists on locating all utterances whether spoken or literary between the participants in a dialogue and thus involves them in considerations of power and authority This introduction and reader serves a double function In the first place Simon Dentith provides a lucid and approachable introduction of the work of Bakhtin and his circle taking the reader helpfully through the many areas of their thought and indicating the points of controversy difficulty and excitement This introductory section culminates in a discussion of the particular emphases lent by Bakhtin to current debates in literary theory The other feature of the book is the anthology of writing by Bakhtin Voloshinov and Medvedev drawn from all the major areas of their work This provides an especially helpful reader for a body of work otherwise published in disparate and relatively inaccessible forms Special emphasis has been given to the still unsurpassed linguistic thought of Voloshinov and the practical analyses of the novel found in Bakhtin's writing on Dostoevsky and Dickens This book will be especially interesting to readers new to the work of Bakhtin and his circle The combination of an introduction and an anthology will allow such readers a context for their reading of Bakhtin an indication of his importance for contemporary debates in literature language and social history and the opportunity to engage directly with the writings of this important and indeed for the student of literary theory essential writer

Constantine Santas encourages us to wonder why film critics have so routinely dismissed the epic film In The Epic in Film he

argues that blockbuster and artistic are not mutually exclusive terms and perhaps more importantly epic film is an inherently profound genre in its ability to tap into a nation's and sometimes humanity's dreams and fears Why do we see dozens and dozens of films based on the King Arthur legend Why would a presidential hopeful borrow a phrase Read my lips from Clint Eastwood's Dirty Harry Why do war epics proliferate in times of war or national crisis Why are epics as a whole the most popular movie genre Start with an individual quest of some kind undertaken by an attractive hero or heroine add the weight of a nation and perhaps humanity into that character's struggle sprinkle some awe inspiring special effects and a general sense of largesse and don't forget the happy ending and there you have a recipe for a film that can contain the deepest emotions fear hope insecurity pride of a nation and sometimes a world Whether you love Gone with the Wind and hate Troy find Akira Kurosawa's films brilliant or marvel over the depth of the Matrix trilogy film buffs will want to read this first book length treatment of the epic a wildly popular infinitely fascinating and critically underappreciated genre **Soviet**
