## Understanding MacIntyre:

*Understanding MacIntyre* Bruce Ballard, 2000-01-10 This book offers an in depth exploration of the work of Alasdair MacIntyre one of the leading social and ethical philosophers of our time Because MacIntyre s historical and philosophical arguments exhibit great erudition and a dense style his work is sometimes not so accessible to readers who might otherwise find his thought enlightening Bruce Ballard provides a great service in *Understanding MacIntyre* clearly explaining the philosopher s basic tenets as set forth in the works *After Virtue* *Whose Justice Which Rationality* and *Three Rival Versions of Moral Enquiry* A thorough summary of MacIntyre s philosophy is followed by a critical discussion of his ideas and a comparison of his work with that of other philosophers *Understanding MacIntyre* is a seminal study that will contribute greatly to our understanding of contemporary philosophy

*Learning from MacIntyre* Ron Beadle, Geoff Moore, 2020-10-30 Alasdair MacIntyre is one of the major philosophers of the late twentieth and early twenty first century *After Virtue* first published in 1981 remains the book for which he is best known but as this volume testifies his phenomenal output extends over a period of seven decades Not only is his output extensive but its impact unusually for philosophers has been wide ranging As MacIntyre enters his tenth decade this book pays tribute not just to his work but to the way in which it has been influential across disciplines outside of philosophy Beginning with an intellectual biography the chapters which follow written by experts in their fields explore MacIntyre s contributions to theology Thomism moral philosophy classical philosophy political philosophy Marxism the Frankfurt School communication business ethics sociology education law and therapeutic method Essential reading for scholars from across these disciplines and for anyone who wishes to understand MacIntyre s contributions this volume not only helps readers to appreciate what we may learn from MacIntyre but also indicates how his work will continue to be influential

[The Animal Inside](#) Geoffrey Dierckxsens, Rudmer Bijlsma, Michael Begun, Thomas Kiefer, 2016-12-07 Much has been written about animals in applied ethics environmental ethics and animal rights This book takes a new turn offering an examination of the animal question from a more fundamental philosophical anthropological perspective The contributors in this important volume focus on how the animal has appeared and can be used in philosophical argumentation as a metaphor or reference point that helps us understand what is distinctively human and what is not A recurring theme in the essays is the existence of a zone of ambiguity between animals and humans which puts into question comfortable assumptions about the uniqueness and superiority of human nature While the chapters straddle the boundaries of historical philosophical and systematic continental and analytic approaches their thematic unity knits them together presenting a rich broad and yet cohesive perspective The first part of the book offers general explorations of the relation between animal and human nature and of the concomitant existential and ethical dimensions of this relationship The

chapters in the second part address the same theme but in so doing focus on specific aspects of animal and human nature imagination politics history sense finitude and science *Embracing Disruptive Coherence* Kathleen T. Talvacchia, 2019-04-18 Does anyone need to come out anymore Queer theory has challenged the idea of coming out as problematic for its false binary and essentialized version of identity If gender is a socially constructed performativity then what does coming out mean At the same time we live in a society that still struggles with structures of power that define what is considered normal and sanctions those who transgress The intersectionality of gender with race class ethnicity nationality abilities religion age and other positional markers challenge a simplified belief that coming out is not necessary Therefore in the lived experience of many persons coming out still matters This book initiates a different theological conversation about coming out It argues that rather than the declaration of an identity category coming out can be understood as the erotic ethical practice of truth telling The formation of conscience and moral integrity embody the two pillars of this erotic practice Coming out understood as disruptive coherence is the erotic ethical practice of truth telling grounded in our deepest desires to be known authentically in community [The Insider/Outsider Problem in the Study of Religion](#) Russell T. McCutcheon, 1999-03-07 Thirty classic and contemporary readings from such writers as Kant Hume Schleiermacher and Otto to Ninian Smart Mircea Eliade Karen McCarthy Brown and Wendy Doniger *Studia Philosophica Wratislaviensis* Damian Leszczyński, Artur Pacewicz, 2013-12-01 The set of philosophical papers **Revolutionary Aristotelianism** Kelvin Knight, Paul Blackledge, 2016-11-21 This book includes revisions of papers originally presented at the inaugural conference of the International Society for MacIntyrean Philosophy on the theme of Alasdair MacIntyre's Revolutionary Aristotelianism Ethics Resistance and Utopia hosted by the Human Rights and Social Justice Research Institute at London Metropolitan University The papers selected are by fifteen leading international philosophers and political theorists Writing from a variety of perspectives they address MacIntyre's accounts of Aristotelianism Thomism and Marxism his virtue ethics and metaethics the development of his philosophical project and his critiques of managerialism capitalism and liberalism The book concludes with an extensive response by MacIntyre in which he clarifies his past arguments his present position and his relation to rival theories of moral political and social practice **Understanding Cultures** Robert Charles Ulin, 1984 *Understanding Cultures* confronts the major theoretical issues involved in cross cultural interpretation The book introduces students to rationality among the ancestors of anthropology before proceeding to a wide ranging evaluation of the Anglo American rationality debates At issue is the opposition between scientific models of understanding human action and those models that emphasize human action as symbolic and meaningful thus privileging an interpretive framework This long awaited second edition includes a new chapter on globalism and cultural diaspora that challenges conventional notions of bounded culture and bounded self and has important implications for refiguring the rationality debates fieldwork and cross cultural interpretations more generally **Self-understanding as a Process** Mika Hannula, 1997 [Current Progress in](#)
