Understanding Distance Education A Framework For The Future:

Understanding Distance Education D. Randy Garrison, 1989 This book focuses on important issues surrounding distance education and provides a framework on which to build the future of distance education Understanding Distance Education D.R. Garrison, 2026 Understanding Distance Education D.R. Garrison, 2026-04-30 First published in 1989 Understanding Distance Education explores important issues surrounding distance education and provides a framework on which to build the future of distance education The author begins with an analysis of education in general and the process that supports it identifying two way interactive communication as a defining feature of the educational process He shows that the unique challenge in distance education is finding appropriate and effective ways of supporting this kind of communication when contact between teachers and students is at a distance Using communication as a theme Dr Garrison describes the technology of distance education discusses the roles of distance education and explores the interrelationship of adult and distance education He looks at distance education organisations and gives an account of developments towards more open learning systems developments which he believes will eventually guide the integration of distance and conventional education into an efficient system serving the educational needs of all learners *Thinking Collaboratively* D. Randy Garrison, 2015-06-05 *Thinking Collaboratively* is a theoretical and practical guide to thinking and learning in deep and meaningful ways within purposeful communities of inquiry Critical thinking has long been recognized as an important educational goal but until now has largely been conceived and operationalized as an individual attitude and ability Increasingly however a more relevant and complete cognitive construct has been emerging thinking collaboratively Thinking collaboratively is the means to inquire test and apply new understandings and to make sense of the information that bombards us continuously In short thinking collaboratively is required to flourish in our highly connected world and in this book based on more than a decade of research Garrison provides an essential introduction to this vital concept The Future of Management Education Martin R. Fellenz, Sabine Hoidn, Mairead Brady, 2022-04-07 To remain relevant management education must reflect the realities that influence its subject matter management while at the same time addressing societal needs and expectations Faced by powerful drivers of change many of which are amplified by the immense turbulence caused by the COVID 19 pandemic in early 2020 an assessment of where management education stands and where it is going is timely This book brings together management education scholars practitioners and stakeholders to identify trends and to critically analyse key challenges from their respective perspectives They consider the requirements for providing relevant management education in the future and explore changes and opportunities around themes such as responsibility sustainability innovation competitive strategy and technological change The different perspectives of the authors contribute distinct insights and form a fascinating kaleidoscope of reflections on the present and predictions and prescriptions for the future of management education The result is a comprehensive volume that will be essential reading for

scholars and administrators committed to the growth and development of management education It also will be of keen interest to management educators as well as management learners who will shape and be shaped by the management education of the future
