War, Peace, and the Future Ellen Key, 1916      **War, Peace, and Human Nature** Douglas P. Fry, 2013-04-25 A collection of essays from leading academics about the nature of war and the capacity for peace as applied to human nature

**War, Peace and World Orders in European History** Anja V. Hartmann, Beatrice Heuser, 2002-11 This book explores a new way for students of International Relations to look at war peace and world orders throughout European history The contributors argue that the predominant realist paradigm that focuses on states and their self interest is not applicable to the largest period of European history because states either did not exist or were only in the making Instead they argue we have to look through the eyes of historical entities to see how they understood the world in which they lived The authors use a wide range of case studies focusing on subjects as diverse as the ancient Greek concept of honour and persecution under Communist regimes during the Cold War to explore the ways in which people in different societies at different times perceived and felt about war and peace in the world around them      **War, Peace and the Military** Franz

Kernic, 2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of re thinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society      War, Peace, and Reconciliation Theodore R. Weber, 2015-11-11 War Peace and

Reconciliation invites Christians and the churches into a conversation over how to think about war from a standpoint in faith It asks how reconciliation which is central to Christian life and doctrine can engage the realities of war without surrendering its fundamental affirmations It defines these realities politically by discussing the meanings of power peace as a particular organization of power and the international system The study of war and politics is unavoidable as is the engagement with reconciliation because all human existence and activity exist in the context of the gracious work of God to renew and reconcile the fallen creation The inquiry is theocentric and christocentric It culminates in a call to the churches to examine all their practices in the light of this perspective      **War and peace** graf Leo Tolstoy, 1899      *The Advocate of Peace*, 1903

**Theologies of War and Peace Among Jews, Christians, and Muslims** Albert B.
