It then examines the main features as well as the implementation experience of each of the policies issued in 1956, 1965, and 1985. The principles of international water law prevailing at each stage are reviewed and compared with those of the Bank policy. The book discusses in detail the notification process, the different riparians' responses, and how objections to Bank-financed projects are handled, as well as the exceptions to the notification requirement. It also assesses how the Bank has dealt with transboundary groundwater and the linkages of the policy with the policies on disputed areas and environmental impact assessment.
