At Destiny's End Tracey Nameth, 2008-05-16 Many people's lives will collide on the planet Quinntessa. With an unforgettable dread, a deadly plague from an unimaginable source that drags the mix-species inhabitants of Quinntessa into a hell worse than their own most horrible nightmares, and yours. In this riveting nightmarish Sci-Fi story, death is closer than you think. And the next time you look up at the stars, you may want to stay right here on Earth. It just might be a whole lot safer.

Sea for Two Anne E. O'Neill, 2013-07-30 What do you want us to leave all this and go where? Gualala. Anne is aghast. She had left convent life not that many years ago, and Joseph's proposal sounded like they might be moving to a cloister in the wilderness. It took much weighing of the pros and cons before the two of them could share the same perspective: their world would change, but this time it would be for two, two, and the sea. In the end, she was the one to find the remote ocean bluff house, a fixer-upper they named THE SEA COTTAGE. Anne picks up her pen and records life as it happens in her journal, from the storms rumbling in from the Pacific to the perils of hanging wallpaper together. Always there are the TWO dancing to the ebb and flow of the tides, tides that eventually would carry them elsewhere.

[Shadows of the Future - Episode II: Destiny's Child](#) Robert J. Rubinetti, 2023-05-15 When Amanda Stevenson was fifteen, her parents took her to XUNANTUNICH, an ancient Mayan city. While there, an archeologist working at the site unearthed the tomb of the city's first Mayan leader. Taking advantage of this opportunity, Daniel Stevenson used his influence to allow his daughter to be present at the opening of the tomb. But as fate would have it, within the tomb, two sets of remains were found. Along with the Mayan leader was an alien corpse. Although no one had ever seen a being like this, the alien writings in the tomb matched those Daniel had seen in the ICON star system but hoped never to see again. Years later, on Mars, a drilling company discovers the remains of an underground alien outpost, destroyed thousands of years ago but belonging to the same race of beings as the one found in the Mayan tomb. Finishing her Masters degree in Archeology, Amanda goes to Mars with Archeologist Aston Farlow to uncover the secrets buried in the ancient alien outpost. Meanwhile, on ICON 5, explorers for the United Earth

Reconnaissance Organization UERO are assigned to map out the planet's unexplored lands. As they traverse great stretches of mountains, valleys, and thick forests, they discover an identical alien outpost to the one on Mars. This one, however, is not so abandoned. Eventually, Amanda discovers a secret so profound that it causes her to question her own existence. Compelled by this knowledge, she returns to ICON to communicate with the alien beings. Beings that have been hiding for thousands of years from a malevolent evil bent on their complete and utter genocide. Beings that have awaited the coming of an ancient prophecy that could mean the difference between their freedom or final extinction. A prophecy thousands of years old imparted to their race by their Grand Oracle. A prophecy on an intercept course with the human race and the coming of Amanda Stevenson.

Maverick's Matt Warshaw, 2003-10-09. With its massive faces, punishing rocks, and treacherous currents, *Maverick's* presents a surfing challenge like no other. Author Matt Warshaw has updated his critically acclaimed illustrated history of *Maverick's* to cover important recent developments, and we've added a fresh new cover to kick this edition off in style. A fascinating account to quote *Surfer* magazine, it takes a cue from Sebastian Junger's *The Perfect Storm*. Warshaw focused on a single event and expands on it to illuminate an entire culture and its world beyond waves. The event was the death of celebrated surfer Mark Foo, one of those who congregate every winter to test themselves in the dark, foreboding waters. And what unfolds in *Maverick's* is no less than the story of big wave surfing from its ancient Hawaiian origins to modern tow-in riders. It's a book to be enjoyed not only by those who surf deep in the waves but also by those whose taste for adventure is satisfied deep in the pages of a very good book.
