Garriot, 2001-09 Evening red and morning gray two sure signs of one fine day science and folk lore with the science as a predominating matter let us know How to tell the weather from clouds dew mist haze fog wind stars rainbows rain hail birds animals insects fish and plants The wisdom acquired from our ancestors has been perpetuated in the form of trite sayings or proverbs Many of these sayings are polished gems of weather lore others have lost their potency by transfer to foreign lands where dissimilar climatic conditions obtain and a large proportion have been born of fancy and superstition This book separates from the mass of available data the true sayings that are applicable to the United States and combines the material thus collected with reports on local weather signs that have been officially and specially prepared by observers of the United States Weather Bureau

Weather Lore Richard Inwards, 2015-08-05 Excerpt from Weather Lore A Collection of Proverbs Sayings and Rules Concerning the Weather The state of the weather is almost the first subject about which people talk when they meet and it is not surprising that a matter of such importance to comfort health prosperity and even life itself should form the usual text and starting point for the conversation of daily life From the earliest times hunters shepherds sailors and tillers of the earth have from sheer necessity been led to study the teachings of the winds the waves the clouds and a hundred other objects from which the signs of coming changes in the state of the air might be foretold The weather wise amongst these primitive people would be naturally the most prosperous and others would soon acquire the coveted foresight by a closer observance of the same objects from which their successful rivals guessed the proper time to provide against a storm or reckoned on the prospects of the coming crops The result has been the framing of a rough set of rules and the laying down of many wise saws about the weather and the freaks to which it is liable Some of these observations have settled down into the form of proverbs others have taken the shape of rhymes while many are yet floating about unclaimed and unregistered but passed from mouth to mouth as mere records of facts varying in verbal form according to local idioms but owning a common origin and purport Many weather proverbs contain evidence of keen observation and just reasoning but a greater number are the offspring of the common tendency to form conclusions from a too limited observation of facts Even those which have not been confirmed by later experience will be interesting if only to show the errors into which men may be led by seeing Nature with eyes half closed by prejudice or superstition It has seemed to me desirable that all this fossil wisdom should be collected and I have
