Navigating Misinformation Katrin Hartwig, 2025-07-18 Informed navigation of misinformation on social media constitutes a major challenge The field of Human Computer Interaction HCI suggests digital misinformation interventions as user centered countermeasures This book clusters 1 existing misinformation interventions within a taxonomy encompassing designs interaction types and timings The book demonstrates that current research mostly addresses higher educated participants and targets Twitter X and Facebook It highlights trends toward comprehensible interventions in contrast to top down approaches The findings informed 2 the design implementation and evaluation of simulated apps for TikTok voice messages and Twitter X as indicator based interventions Therefore 3 the book identified misinformation indicators for various modalities that were perceived as comprehensible The book empirically demonstrates that 4 indicator based interventions are positively received due to their transparency However they also come with challenges such as users blind trust and lack of realistic assessments of biases This research outlines chances and implications for future research

**Artificial Intelligence** Yorick A. Wilks, 2023-04-25 A fascinating richly illustrated journey through the history of artificial intelligence and an honest assessment of our future alongside it Artificial intelligence has long been a mainstay of science fiction and increasingly it feels as if AI is entering our everyday lives with virtual personal assistants such as Apple s Siri now ubiquitous and self driving cars almost upon us But what do we actually mean when we talk about artificial intelligence In this comprehensive beautifully illustrated account AI expert Yorick Wilks traces the history of artificial intelligence back to its origins examining not only how it works and why it was designed but also its controversies and achievements Along the way Wilks also considers our future with AI assessing whether these technologies will benefit humanity or merely menace our way of life Are the sentient machines of 2001 A Space Odyssey or The Matrix plausible or will real world AI look and feel very different What has AI done for us so far What do we want it to do And what technologies could it yield in the future Entertaining enlightening and keenly argued Artificial Intelligence Modern Magic or Dangerous Future is the essential guide to the AI debate

Information, Security and Society in the COVID-19 Pandemic Natalia Moch, Wioletta Sylwia Wereda, Jerzy Stańczyk, 2023-07-14 The COVID-19 pandemic has forced society to re-evaluate security crisis and risk management principles and policies so we are better prepared to deal with contemporary threats. This book provides an overview of selected and key changes that have taken place in the security environment across entities. The book analyzes the impact of the COVID-19 pandemic on the security environment and modern societies. Using a holistic interdisciplinary approach to security issues, it draws attention to political, military, cultural, information, legal, psychological, and social aspects. Combining theoretical, empirical, and practical perspectives, the editors and contributors present the result of research on both current and forecast effects of the pandemic on individuals, social groups, countries, and the international community. This edited collection will be directly relevant for researchers and academics across a range of management disciplines including risk crisis and security management, information management, and related fields.

**Fool's Gold** Mark Y. Herring, 2015-01-09 This work skeptically explores the notion that the internet will soon obviate any need for traditional print-based academic libraries. It makes a case for the library's staying power in the face of technological advancements. Television, microfilm, and CD-ROMs were all once predicted as the contemporary library's heir apparent and devotes individual chapters to the pitfalls and prevarications of popular search engines, e-books, and the mass digitization of traditional print material.
