Temples And Fields:

Temples, Tithes, and Taxes Marty E. Stevens, 2006-11-01 The temple in Jerusalem was both the center of ancient Israel's religious life and also an economic center for the nation In this groundbreaking study of the economic functions of the Jerusalem temple Marty E Stevens who worked for fifteen years as a certified public accountant prior to getting a PhD in Old Testament demonstrates that the temple acted as the central bank internal revenue collector source of loans and even debt collector for ancient Israel Applying a broad knowledge of temple systems throughout the ancient Near East Stevens sheds light on the roles played by various officials mentioned in Scripture and their tasks within the temple complex Neither Big Brother nor big business the temple still served government and commerce in the course of conducting its religious functions This fascinating book opens new avenues for understanding the Jerusalem temple and its impact on Israelite society

The Economy of Ancient Egypt Mahmoud Ezzamel, 2024-08-21 Taking ancient records as the starting point for analysis this book theorises the state administration and economy of ancient Egypt The Egyptian state is theorised as an administrative field of material and symbolic powers with emphasis upon the latter because it has received scant attention in Egyptology Maat truth fairness connective justice is theorised as symbolic power discursively authored disseminated and monitored by senior administrators who redefined its meaning to suit changes in the sociopolitical contexts The book examines the classification schemes of the Egyptian population devised by the administrative field of power and how they were used to differentiate hierarchise and fix specific individuals within clearly demarcated social and economic categories that aimed to fix the subjectivity of those assigned to each category Ancient Egyptian had a significant state economic sector and a private sector A multiplicity of sources of state economic resources are examined taxation impost war booty and tributes and gifts exchanged between the Egyptian kings and foreign kings A nuanced understanding of Polanyi's work on redistribution is used to theorise the cycle of levying

collecting storing and redistributing tax revenues Exchanges of gifts between Egyptian kings and kings from Asia Minor are theorised as occurring on a stage of institutional drama war booty as an economy of force and tribute as an economy of restitution Private exchange is theorised by developing the concept of sociable markets and drawing on Maat in its various meanings as truth fairness and connective justice This book will be of interest to readers in the fields of economic history ancient Egypt and ancient history more broadly

Maritime Trade and State Development in Early Southeast Asia
 Kenneth R. Hall, 2019-03-31 This book brings something new in both dimension and detail to our understanding of Southeast Asia from the first to the fourteenth centuries It puts Southeast Asia in the context of the international trade that stretched from Rome to China and draws upon a wide range of recent scholarship in history and the social sciences to redefine the role that this trade played in the evolution of the classical states of Southeast Asia By examining the sources of Southeast Asia's classical era with the tools of modern economic history the author shows that well developed socioeconomic and political networks existed in Southeast Asia before significant foreign economic penetration took place With the growth of interest in Southeast Asian commodities and the refocusing of the major East West commercial routes through the region during the early centuries of the Christian era internal conditions within Southeast Asia adjusted to accommodate increased external contacts Hall takes the view that Southeast Asia's response to international trade was a reflection of preexisting patterns of trade and statecraft In the forty years since Coede's monumental work *The Indianized States of Southeast Asia* was published a great deal of archaeological and epigraphical work has been done and new interpretations advanced By integrating new theoretical constructs recent archaeological finds and interpretations and his own informed reading and research Kenneth R. Hall puts his historical narrative on a large canvas and treats areas not previously brought together for discussion along comparative lines Like Coede's work his book will be important as a basic text for the teaching of early Southeast Asian history

Fault, Responsibility, and Administrative Law in Late Babylonian Legal Texts F. Rachel Magdalene, Cornelia Wunsch, Bruce Wells, 2019-10-23 This book presents a reassessment of the governmental systems of the Late Babylonian period specifically those of the Neo Babylonian and early Persian empires and provides

evidence demonstrating that these are among the first to have developed an early form of administrative law The present study revolves around a particular expression that in its most common form reads u a arri i addad and can be translated as he will be guilty of an offense against the king The authors analyze ninety six documents thirty two of which have not been previously published discussing each text in detail including the syntax of this clause and its legal consequences which involve the delegation of responsibility in an administrative context Placing these documents in their historical and institutional contexts and drawing from the theories of Max Weber and S N Eisenstadt the authors aim to show that the administrative bureaucracy underlying these documents was a more complex systematized and rational system than has previously been recognized Accompanied by extensive indexes as well as transcriptions and translations of each text analyzed here this book breaks new ground in the study of ancient legal systems
