The Making Of Mind:

Making Mind Gregory F. Tague, 2014-01-01 Making Mind Moral Sense and Consciousness in Philosophy Science and Literature posits the genesis of narrative as an adaptive function stemming from consciousness and moral sense The book is unique with its idea of the individual character evolving narrative in relation to the group Central to the argument is the claim that prehistorically consciousness and moral sense intersected to form narrative More than addressing the origin of story the book examines and explains the evolution of narrative The book is an interesting study of how our species inherited moral sense can differ dramatically from one individual to another While mores pertain to a group narrative comes from and is processed by the individual and reaches its high point in the novel We see how the moral sense works in characters as a monitor and we feel it operating in us as readers in terms of approval or not ICONECT 2019 Murtono, Moh Kanzunudin, Fina Fakhriyah, Ratri Rahayu, Robbi Rahim, The complex problems of education and technological development and information demands then takes its main innovations in learning The purpose of this Education is Innovation in order to improve the quality effectiveness efficiency relevance and productivity making the learning process more meaningful and fun for children Innovation can be performed in all subjects learning methods media and evaluation Innovation based learning local culture values will yield the superior character that will benefit children in the face of a globalized world So is innovation technology based learning make learning be fun so that children become active and creative ideas thoughts research related to the innovation of education can be presented in International Conference Education Culture and technology is preferred The theme of this Conference Innovation of Education to Improve Character Value for Children
