The Herd Register of the American Guernsey Cattle Club ,1930 **Dissemination of Information in Communication Networks** Juraj Hromkovič,Ralf Klasing,A. Pelc,Peter Ruzicka,Walter Unger,2005-12-12 Preface Due to the development of hardware technologies such as VLSI in the early 1980s the interest in parallel and distributive computing has been rapidly growing and in the late 1980s the study of parallel algorithms and architectures became one of the main topics in computer science To bring the topic to educators and students several books on parallel computing were written The involved textbook *Introduction to Parallel Algorithms and Architectures* by F Thomson Leighton in 1992 was one of the milestones in the development of parallel architectures and parallel algorithms But in the last decade or so the main interest in parallel and distributive computing moved from the design of parallel algorithms and expensive parallel computers to the new distributive reality the world of interconnected computers that cooperate often asynchronously in order to solve different tasks Communication became one of the most frequently used terms of computer science because of the following reasons i Considering the high performance of current computers the communication is often more time consuming than the computing time of processors As a result the capacity of communication channels is the bottleneck in the execution of many distributive algorithms ii Many tasks in the Internet are pure communication tasks We do not want to compute anything we only want to execute some information change or to extract some information as soon as possible and as cheaply as possible Also we do not have a central database involving all basic knowledge Instead we have a distributed memory where the basic knowledge is distributed among the local memories of a large number of different computers The growing importance of solving pure communication tasks in the interconnected world is the main motivation for writing this book *Chronology* Thomas Tegg,1824 **Forever Warriors** M.J.
