**Papers in Structural and Transformational Linguistics** Zellig S. Harris,2013-12-01 **Papers on Syntax Z.** Harris,2012-12-06 The selection of papers reprinted here traces the development of syntax from structural linguistics through transformational linguistics to operator grammar These three are not opposing views or independent assumptions about language Rather they are successive stages of investigation into the word combinations which constitute the sentences of a language in contrast to those which do not Throughout the goal has been to find the systematicities of these combinations and then to obtain each sentence in a uniform way from its parts In structural analysis the parts were words simple or complex belonging to particular classes or particular sequences of these In transformational analysis it is found that the parts of a sentence are elementary sentences whose parts in turn are simple words of particular classes The relation between these two analyses is seen in the existence of an intermediate stage between the two presented in paper 4 From Morpheme to Utterance A further intermediate stage is presented in the writer's *String Analysis of Sentence Structure Papers on Formal Linguistics I* Mouton The Hague 1962 though it was developed after transformations as a syntactic representation for computational analysis Generalization of both of these analyses leads to operator grammar in which each sentence is derived in a uniform way as a partial ordering of the originally simple words which enter into it Each step least upper bound of the partial ordering of a word requiring another forms a sentence which is a component of the sentence being analyzed Zellig Harris Robert F Barsky,2011-04-04 The intersecting worlds of Zellig Harris Noam Chomsky's intellectual and political mentor In 1995 Robert Barsky met with Noam Chomsky to discuss his work in progress Noam Chomsky A Life of Dissent MIT Press 1997 Chomsky told Barsky that he should focus his attention instead on midcentury linguist and activist Zellig Harris who was Chomsky modestly insisted more interesting than Chomsky himself Intrigued Barsky began to research Harris 1909 1992 and discovered the story of a major figure in American intellectual life sitting in a corner in the middle of the room part of crucial twentieth century conversations about language technology labor politics and Zionism The intersecting worlds of Harris's intellectual and political activities were populated by such figures as Louis Brandeis Albert Einstein Franz Boas Nathan Glazer and Chomsky Barsky describes Harris's work in language studies and his

pioneering ideas about discourse analysis structural linguistics and information representation He also discusses Harris s part in the pre 1948 Zionist movement when many Jews on the Left envisioned a socialist Palestine that would be a haven not only for persecuted Jews but also for disenfranchised Arabs and anyone seeking a sanctuary against oppression and recounts Harris s debates on the subject with Brandeis Einstein and a large group of students involved with a Zionist organization called Avukah And Barsky describes Harris s views on capitalism worker owner relations and worker self management the legacy of which can be found in some of his students writings notably those of Seymour Melman Barsky shows how Harris as mentor teacher and colleague powerfully influenced figures who came to dominate the twentieth century s political discussion thinkers as different as Noam Chomsky and Nathan Glazer [String Program Reports](#) New York University.
