William Eggleston's Guide:

William Eggleston's Guide William Eggleston, John Szarkowski, 1976 **William Eggleston's Guide** William Eggleston, 1976 *Ancient and Modern* William Eggleston, 2002 The appreciation of Eggleston's work has come a long way since his pioneering 1976 exhibition *William Eggleston's Guide* at New York's Museum of Modern Art. He has been called the father of colour photography and since the 1990s he is widely regarded as the leading and most influential colour photographer of the twentieth century. *Ancient and Modern* is a collection of photographs chosen from Eggleston's earliest photographs taken in the American South, Africa and England. The photographs depict subjects and objects from everyday life and it is Eggleston's unique ability to find beauty and striking displays of colour in ordinary scenes. Mark Holborn in his illuminating introduction writes about the dark undercurrent of these mundane scenes as viewed through Eggleston's lens. Eggleston's subjects are on the surface the ordinary inhabitants and environs of suburban Memphis and Mississippi: friends, family, barbecues, back yards, a tricycle and the clutter of the mundane. The normality of these subjects is deceptive; behind the images there is a sense of lurking danger.

Post-World War II Masculinities in British and American Literature and Culture Stefan Horlacher, Kevin Floyd, 2016-04-08 Analyzing literary texts, plays, films and photographs within a transatlantic framework, this volume explores the inseparable and mutually influential relationship between different forms of national identity in Great Britain and the United States and the construction of masculinity in each country. The contributors take up issues related to how certain kinds of nationally specific masculine identifications are produced, how these change over time and how literature and other forms of cultural representation eventually question and deconstruct their own myths of masculinity. Focusing on the period from the end of World War II to the 1980s, the essays each take up a topic with particular cultural and historical resonance: whether it is hypermasculinity in early cold war films, the articulation of male anxieties in plays by Arthur Miller, David Mamet and Sam Shepard, the evolution of photographic depictions of masculinity from the 1960s to the 1980s, or the representations of masculinity in the fiction of American and British writers such as Patricia Highsmith, Richard Yates, John Braine, Martin Amis, Evan S. Connell, James Dickey, John Berger, Philip Roth, Frank Chin and Maxine Hong Kingston. The editors and contributors make a case for the importance of understanding the larger context for the emergence of more pluralistic, culturally differentiated and ultimately transnational masculinities, arguing that it is possible to conceptualize and emphasize difference and commonality simultaneously.

William Eggleston's Guide to the Suburban South Amanda K. Malloy, In 1976 Memphis, Tennessee photographer William Eggleston had his first solo exhibition at the Museum of Modern Art in New York City. This exhibition was the first dedicated to a single photographer working in color. While Eggleston's use of color was groundbreaking, his depictions of contemporary southern life were similarly exceptional. Working against previous photographic representations of the South, Eggleston presented a region succumbing to national homogenization through land development, commercialization and suburbanization. Eggleston's monograph

resulting from his debut exhibition at MoMA William Eggleston's Guide tells the story of this changing region from the outdoor spaces that were once agriculturally rooted to the private intimate spaces of the rural South He juxtaposes these types of images with photographs depicting development and abuse on once agrarian soil By doing this William Eggleston's Guide encouraged viewers in 1976 and still today to reevaluate our interactions with the environments around us
