

## SPIRITUAL MISSION OF CATS

Cats live in communication with many planes and dimensions of existence and know-how to naturally coexist with all beings of light by **sensing their vibrations**. Cats help us heal with their high vibration level. They know how to **detect when we need care**, emotional support, or just help.

Cats' **healing abilities** manifest themselves in different ways. Just having a cat nearby helps us raise our vibration as they have a universal and **deep connection** with Mother Earth.

Confessions of a Heretic Eric Leland Saak,2024-07-16 This work is written for all those who have struggled with the concept of God with their faith in God and how God can be at all relevant in our world today Written in the context of a personal and family crisis which frames the work it is the first of a planned three volume systematic theology under the title Confessions of a Heretic It seeks to answer the question of how can one believe in God when horrible things happen from personal tragedy and trauma to natural disasters and war The answer is not a comforting one but one that asserts that the problem is with our conception of God to begin with We strive to make God conform to our will But that is the very definition of idolatry and the work argues that the established religious traditions including Christianity and especially Christianity in America are idolatrous based on idolatrous conceptions of God Yet to see how this is so we have to delve into philosophical arguments regarding Being Time Reality and the very understanding of what a human being actually is whereby the argument proposes a radical reconceptualization of the Western philosophical tradition on these issues **ET Visitors**
