By their very nature traditions are diverse This is particularly the case with theological traditions even including those cases where they have been named for a single individual e g Augustinianism Thomism Lutheranism and Calvinism In the eras of the Reformation and of Reformed orthodoxy there was intense theological debate leading to confessional identity and confessional boundaries hence the Remonstrant controversy in the early seventeenth century What the essays of this volume look at however are the debates that took place within the Reformed theological tradition particularly within Puritan England Some of the debates considered here threatened to rise to a confessional level whereas others were not so serious insofar as they did not press on confessional boundaries The Puritan tradition surveyed in these essays looks at both major and minor intra Reformed debates Most of these debates analyzed have been passed over in the older scholarship in its quest to find the few true Calvinians to oppose to the so called Calvinists By contrast none of the studies included in the present volume brands one side of a seventeenth century debate as un Calvinian or identifies an alteration of doctrinal perspective as a declension from Reformation era purity Calvin no longer appears as a norm although he does appear with other Reformers as an antecedent of certain lines of argument Lastly the essays document the ongoing concern among Reformed theologians to further the Reformation cause In this pursuit Reformed theologians as they did during the time of the Reformation theologians often found themselves disagreeing on a number of theological doctrines *Spiritual Refining, Or a Treatise of Grace and Assurance* Anthony Burgess, 1658 *A Question of Consensus* Jonathan Master, 2015-06-01

From the very earliest days after its completion in 1646 the Westminster Confession's position on assurance has been a subject of controversy In this exciting new work Jonathan Master considers the Westminster Confession's statements on assurance as a position of consensus among a diversity of viewpoints Master traces how from this one position the idea was expanded and modified even by the document's own authors just years after its reception in very distinct ways Each of these expansions on what was intended to be a consensus document forms the basis for later traditions regarding assurance within the Reformed and Evangelical traditions To date few studies have examined these expansions as a united whole and Master's work highlights the ways in which the streams of thought flowing out of Westminster are as important as those flowing into it raising as they do questions about confession and doctrinal freedom in the growing Reformed tradition
