needs no further inquiry but in all probability where there wants demonstration to establish the truth beyond doubt then it is not enough to trace one argument to its source and observe its strength and weakness but all the arguments after having been so examined on both sides must be laid in the balance one against another and upon the who let he under standing determines its as sent John Locke on the Conduct of the Understanding

creation of chiropractic and other Progressive era versions of alternative medicine happened at a time when the relationship between science and religion took on an urgent increasingly competitive tinge Many remarkable people including the Palmers undertook highly personal reinterpretations of their physical and spiritual worlds In this context Folk reframes alternative medicine and spirituality as a type of populist intellectual culture in which ideologies about the body comprise a highly appealing form of cultural resistance
