Cameron,Tenzin Namdul,2020-01-28 All of us want to be happy and avoid suffering So why are many of us anxious angry depressed We suffer from pain hypertension inflammation indigestion insomnia and addictions Yet too often we make choices that sabotage us rather than reverse what s wrong Tibetan medicine Tibet s ancient comprehensive science of healing offers effective tools for transforming suffering into health and happiness Tibetan medicine teaches that the purpose of life is to be happy and that after our basic needs are met happiness results primarily from our own thinking When challenges arise we can wallow in negativity and get sick or even sicker in mind and body Or we can decide to create health and happiness Making positive choices won t solve every problem but will produce better results than poor or thoughtless decisions do This unique book explains in everyday English how to use Tibetan medicine for self care and as a complement to modern medicine

Tibetan medicine sheds light on the intricate relationship between mind and body. Each of us is born with a unique combination of energies called our constitution. Understanding our constitution empowers us to make conscious informed decisions about our thoughts, diet, and behavior to keep our energies in balance. We learn to reduce stress, create health, prepare for death, and be happy.

Compassionate Leadership Rasmus Hougaard, Jacqueline Carter, 2022-01-18. Leadership is hard. How can you balance compassion for your people with effectiveness in getting the job done? A global pandemic, economic volatility, natural disasters, civil and political unrest. From New York to Barcelona to Hong Kong, it can feel as if the world as we know it is coming apart. Through it all, our human spirit is being tested. Now more than ever, it's imperative for leaders to demonstrate

compassion But in hard times like these leaders need to make hard decisions deliver negative feedback make difficult choices that disappoint people and in some cases lay people off How do you do the hard things that come with the responsibility of leadership while remaining a good human being and bringing out the best in others Most people think we have to make a binary choice between being a good human being and being a tough effective leader But this is a false dichotomy Being human and doing what needs to be done are not mutually exclusive In truth doing hard things and making difficult decisions is often the most compassionate thing to do As founder and CEO of Potential Project Rasmus Hougaard and his longtime coauthor Jacqueline Carter show in this powerful practical book you must always balance caring for your people with leadership wisdom and effectiveness Using data from thousands of leaders employees and companies in nearly a hundred countries the authors find that when leaders bring the right balance of compassion and wisdom to the job they foster much higher levels of employee engagement performance loyalty and well being in their people With rich examples from Netflix IKEA Unilever and many other global companies as well as practical tools and advice for leaders and managers at any level *Compassionate Leadership* is your indispensable guide to doing the hard work of leadership in a human way
