W. Mullineux,Victor Murinde,2003 The Handbook of International Banking provides a clearly accessible source of reference material covering the main developments that reveal how the internationalization and globalization of banking have developed over recent decades to the present and analyses the creation of a new global financial architecture The Handbook is the first of its kind in the area of international banking with contributions from leading specialists in their respective fields often with remarkable experience in academia or professional practice The material is provided mainly in the form of self contained surveys which trace the main developments in a well defined topic together with specific references to journal articles and working papers Some contributions however disseminate new empirical findings especially where competing paradigms are evaluated The Handbook is divided into four areas of interest The first

deals with the globalization of banking and continues on to banking structures and functions The authors then focus on banking risks crises and regulation and finally the evolving international financial architecture Designed to serve as a source of supplementary reading and inspiration the Handbook is suited to a range of courses in banking and finance including post experience and in house programmes for bankers and other financial services practitioners This outstanding volume will become essential reference for policymakers financial practitioners as well as academics and researchers in the field
