

A photograph of a spiral staircase in a library. The staircase is made of dark metal and has a wooden handrail. The background shows rows of bookshelves filled with books. The lighting is dim, creating a quiet and studious atmosphere.

Study while others are sleeping;  
work while others are loafing;  
prepare while others are playing;  
and dream while others are wishing.

## **While Others Sleep:**

The Jataka Tales (Complete) Anonymous, This conclusion is confirmed by the fact that J\_ataka scenes are found sculptured in the carvings on the railings round the relic shrines of Sanchi and Amaravati and especially those of Bharhut where the titles of several J\_takas are clearly inscribed over some of the carvings These bas reliefs prove that the birth legends were widely known in the third century B C and were then considered as part of the sacred history of the religion Fah hian when he visited Ceylon 400 A D saw at Abhayagiri representations of the 500 bodily forms which the Bodhisatta assumed during his successive births<sup>1</sup> and he particularly mentions his births as Sou to nou a bright flash of light the king of the elephants and an antelope These legends were also continually introduced into the religious discourses which were delivered by the various teachers in the course of their wanderings whether to magnify the glory of the Buddha or to illustrate Buddhist doctrines and precepts by appropriate examples somewhat in the same way as medi val preachers in Europe used to enliven their sermons by introducing fables and popular tales to rouse the flagging attention of their hearers It is quite uncertain when these various birth stories were put together in a systematic form such as we find in our present J\_ataka collection At first they were probably handed down orally but their growing popularity would ensure that their kernel at any rate would ere long be committed to some more permanent form In fact there is a singular parallel to this in the Gesta Romanorum which was compiled by an uncertain author in the 14th century and contains nearly 200 fables and stories told to illustrate various virtues and vices many of them winding up with a religious application Some of the birth stories are evidently Buddhistic and entirely depend for their point on some custom or idea peculiar to Buddhism but many are pieces of folk lore which have floated about the world for ages as the stray waifs of literature and are liable everywhere to be appropriated by any casual claimant The same stories may thus in the course of their long wanderings come to be recognised under widely different aspects as when they are used by Boccaccio or Poggio merely as merry tales or by some Welsh bard to embellish king Arthur s legendary glories or by some Buddhist sama\_a or medi val friar to add point to his discourse Chaucer unwittingly puts a J\_ataka story into the mouth of his Pardoner when he tells his tale of the ryotoures three and another appears in Herodotus as the popular explanation of the sudden rise of the Alcmonid through Megacles marriage with Cleisthenes daughter and the rejection of his rival Hippocleides
