Making the Majors Eric Leifer, 2009-06-01 In this in depth look at major league sports Eric Leifer traces the growth and development of major leagues in baseball football basketball and hockey and predicts fundamental changes as the majors pursue international expansion He shows how every past expansion of sports publics has been accompanied by significant changes in the way sporting competition is organized With each reorganization the majors have created teams closer in ability bringing repetition to competition across time only to expand and energize the public's search for differences between teams and for events that disrupt the repetitive flow The phenomenal success of league sports Leifer writes rests on their ability to manufacture inequalities for fans to latch on to without jeopardizing the equalities that draw fans in Leifer supports his theory with historical detail and statistical analysis He examines the special concerns of league organizers in pursuing competitive balance and presents a detailed analysis of how large city domination has been undermined in the modern era of Major League Baseball Using games from the four major league sports he then shows how fans can themselves affect the course of competition In NFL football for example fans account for nearly all of the persisting inequality in team performance The possibility of sustaining inequality among equals emerges from the cross pressures that fans and leagues place on competition With substantial data in hand Leifer asks the essential question facing the leagues today how can they sustain a situation that depends entirely on simultaneous equality and contention one in which fan involvement may evaporate as soon as one team dominates His answer has significant implications for the future of major league sports both nationally and internationally

in America Bob Jacobson, Information Plus (Firm : Wylie, Tex.), 2008 Contains facts tables charts and statistics on aspects of and issues related to sports in the U S covering such topics as participation and attendance professional team sports college and high school sports the Olympics and performance enhancing drugs *Rooting for the Home Team* Zachary Chastain, 2014-09-29 America's love of sports goes back a long way Baseball basketball and football all came of age in America of the 1800s While men like Abner Doubleday may not have invented these sports they did much to popularize them as rules were officially standardized and national level organizations were founded Amateur and later professional teams sprang up in towns factories and schools across America and rooting for the home team built strong community bonds and stimulated usually friendly rivalries From horse racing to boxing to competitive target shooting Americans would watch cheer for and bet on just about any contest of strength and skill The growing class of Americans with leisure and money to spare discovered tennis and golf and polo and women for the first time participated in competitive sports Long before the World Series and the Super Bowl Americans were idolizing their favorite athletes while they played and watched sports with enthusiasm In Black and White Kenneth L Shropshire, 1996-08-01 Confronts the pressing problems surrounding race and diversity in the front offices of the American sports industry From the years of the Negro Leagues in baseball up to today when college basketball programs entice and then fail to educate young Black men sports in America have long served as a barometer of the country's racial climate Just as Black employees are often barred from the upper echelons of corporate America they are underrepresented in the front offices of the sports industry as well In this compact volume Kenneth L Shropshire confronts prominent racial myths head on offering both a history of and solutions for the most pressing problems currently plaguing sports Despite the fact that Black athletes represent a huge majority of the American sports industry the majority of ownership stake in professional basketball baseball and football teams is still held by white owners And yet when confronted with programs intended to diversify their front offices many teams resort to the familiar refrain of merit based excuses there simply aren't enough qualified Black candidates or they don't know how to network These hollow excuses not only stigmatize and exclude Black employees but directly contradict the important value Black candidates can bring to these roles In the insular world of sports where former players often move up to become coaches managers executives and owners Black candidates are eminently qualified After decades of active involvement with their sport they often bring to the table experiences more relevant to the Black players on their teams As a central aspect of American life the sports industry has a responsibility to be a leader in the fight for racial equality a responsibility that has not yet been met In In Black and White takes the industry to task revealing claims of colorblindness and reverse racism as self-serving deflection and scrutinizing professional and collegiate sports sports agents and owners alike No mere critique however the volume looks optimistically forward outlining strategies that will drive the sports industry toward greater racial equality and help it lead the way for racial justice efforts throughout America *American National Pastimes - A History* Mark Dyreson, Jaime Schultz, 2016-04-14

When the colonies that became the USA were still dominions of the British Empire they began to imagine their sporting pastimes as finer recreations than even those enjoyed in the motherland From the war of independence and the creation of the republic to the twenty first century sporting pastimes have served as essential ingredients in forging nationhood in American history This collection gathers the work of an all star team of historians of American sport in order to explore the origins and meanings of the idea of national pastimes of a nation symbolized by its sports These wide ranging essays analyze the claims of particular sports to national pastime status from horse racing hunting and prize fighting in early American history to baseball basketball and football more than two centuries later These essays also investigate the legal political economic and culture patterns and the gender ethnic racial and class dynamics of national pastimes connecting sport to broader historical themes American National Pastimes chronicles how and why the USA has used sport to define and debate the contours of nation This book was published as a special issue of the International Journal of the History of Sport
