**The Chinese Impact upon English Renaissance Literature** Mingjun Lu,2016-03-09  
The Chinese Impact upon English Renaissance Literature examines how English writers responded to the cultural shock caused by the first substantial encounter between China and Western Europe Author Mingjun Lu explores how Donne and Milton came to be aware of England's participation in the race for the Far East launched by Spain and Portugal and how this new global awareness shaped their conceptions of cultural pluralism Drawing on globalization theory a framework that proves useful to help us rethink the literary world of Renaissance England in terms of global maritime networks Lu proposes the concept of liberal cosmopolitanism to study early modern English engagement with the other The advanced culture of the Chinese Lu argues inculcated in Donne and Milton a respect for difference and a cosmopolitan curiosity that ultimately led both authors to reflect in profound and previously unexamined ways upon their Eurocentric and monotheistic assumptions The liberal cosmopolitan model not only opens Renaissance literary texts to globalization theory but also initiates a new way of thinking about the early modern encounter with the other beyond the conventional colonial postcolonial nationalist and Orientalist frameworks By pushing East West contact back to the period in 1570s 1670s Lu's work uncovers some hitherto unrecognized Chinese elements in Western culture and their shaping influence upon English literary imagination

**Voice From the East: The Chinese Theory of Justice** Huang Yushun,2016-01-15 This book is a pioneering study on restructuring the Chinese theory of justice against a background of hegemonic dominance of the Western theory of justice and of the collective aphasia of

China's intellectual and academic communities in this aspect. It discusses the problems caused by the dominating Western theory of justice and the urgent needs for a universal theory of justice. It delineates the origin and the development of the Chinese intellectual history of justice and explores ways to address justice-related issues in the contemporary world. The book initiates a dialogue on the theory of justice in the world and stimulates further debate and research. In recent years, studies on justice-related issues such as fairness and impartiality have become increasingly popular. Undoubtedly, this has to do with the various manifestations of injustice not only in regions and countries but also in the world's economic and political orders. Currently, the world is dominated by the Western theory of justice, which has led to a series of irrational actions of injustice by certain Western countries in the name of justice. The world is in urgent need of a universal theory of justice acceptable to all countries to guide their acts in international affairs. The book provides a modern interpretation of classical Chinese institutional ethics and reconstructs the Chinese theory of justice in order to initiate a dialogue between the Western and Eastern world on the theory of justice and to contribute to the establishing of a universal theory of justice in the real sense.
