Anthony Blasi analyzes early Christianity using multiple social scientific theories including those of Max Weber Georg Simmel  
Karl Marx Antonio Gramsci Max Scheler Alfred Schutz and contemporary theorists He investigates the canonical New  
Testament books as representative of early Christianity a sample based on usage and he takes the books in the chronological  
order in which they were written The result is a series of stills that depict the movement at different stages in its  
development His approaches often neglected in New Testament studies include such sociological subfields as sect theory the  
routinization of charisma conflict stratification theory stigma the sociology of knowledge new religions the sociology of  
secrecy marginality liminality syncretism the social role of intellectuals the poor person as a type the sick role degradation  
ceremonies populism the sociology of migration the sociology of time mergers the sociology of law and the sociology of  
written communication Needing to treat the New Testament text as social data Blasi uses his background in biblical studies  
and a review of a vast literature to establish the chronology of the compositions of the New Testament books and to present  
the data in a new translation that is accessible to non specialists Paul's Visual Piety J. M. F. Heath,2013-05-02 This book  
is at the interface between Visual Studies and Biblical Studies and is the only monograph to date on St Paul s visual piety  
Heath argues that biblical scholarship has downplayed this worldly visuality in Christian culture and that the exegesis of Paul  
is both a partial cause and a symptom of this disciplinary blind spot Veiled Hearts V3: A Novel (1856) Emma Jane

*The Conclusion of the New Testament (4)* Witness Lee, In the Lord's recovery during the past five hundred years, the church's knowledge of the Lord and His truth has been continually progressing. This monumental and classical work by Brother Witness Lee builds upon and is a further development of all that the Lord has revealed to His church in the past centuries. It is filled with the revelation concerning the processed Triune God, the living Christ, the life-giving Spirit, the experience of life, and the definition and practice of the church. In this set, Brother Lee has kept three basic principles that should rule and govern every believer in their interpretation, development, and expounding of the truths contained in the Scriptures. The first principle is that of the Triune God dispensing Himself into His chosen and redeemed people; the second principle is that we should interpret, develop, and expound the truths contained in the Bible with Christ for the church; and the third governing principle is Christ, the Spirit, life, and the church. No other study or exposition of the New Testament conveys the life, nourishment, or ushers the reader into the divine revelation of God's holy Word according to His New Testament economy as this one does.
