Veritatis Splendor:

What the Church Teaches William F. Maestri, William Maestri, 1994 **Mary's Pope** Antoine Nachez, 2000 Rooted in Scripture Tradition and Redemptoris Mater and other encyclicals this book lays the foundations for understanding the teachings of the Catholic Church concerning Mary **A History of Catholic Moral Theology in the Twentieth Century** James F. Keenan, 2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics also known as moral theology The thesis is that only through historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th could become by the end of the 20th century the most innovative one The 20th century begins with moral manuals being translated into the vernacular After examining the manuals of Thomas Slater and Henry Davis Keenan then turns to three works and a crowning synthesis of innovation all developed before during and soon after the Second World War The first by Odon Lottin asks whether moral theology is adequately historical Fritz Tillmann asks whether it s adequately biblical and Gerard Gilleman whether it s adequately spiritual Bernard Haering integrates these contributions into his Law of Christ Of course people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere classical gate keepers censoring innovation But with Humanae vitae and successive encyclicals bishops and popes reject the direction of moral theologians At the same time moral theologians like Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience In their move toward a deeper appreciation of their field as forming consciences they turn more deeply to local experience where they continue their work of innovation Each continent subsequently gives rise to their own respondents In Europe they speak of autonomy and personalism in Latin America liberation theology in North America Feminism and Black Catholic theology and in Asia and Africa a deep post colonial interculturatism At the end I assert that in its nature theological ethics is historical and innovative seeking moral truth for the conscience by looking to speak crossculturally *The Splendor of Truth* Pope John Paul II, 2002-11-18 A landmark encyclical of Pope St John Paul II s pontificate The Splendor of Truth is a brilliant presentation of Catholic moral theology for the contemporary world Leaning on the bedrock of the Gospel and perennial Catholic teaching John Paul II evaluates the modern ethical landscape and makes a strong case for biblical and natural law morality against the popular moral theories of relativism and proportionalism At the heart of this encyclical now considered to be a standard text for courses in moral theology lies the principle that the whole of truth centers on Jesus Christ who shapes our freedom and answers our questions about good and evil [A Companion to Veritatis Splendor](#) James Tolhurst, 1994 **New Wine, New Wineskins** William C. Mattison III, 2005-06-03 The growing shift in Catholic moral theology from reflecting on rules alone to focusing on the identity and formation of persons as moral agents prompts a further question What impact do recent changes in the identity and formation of Catholic moral theologians themselves have on how that discipline is practiced Young Catholic moral theologians experience a sharply different

professional formation and a changed location of ongoing professional life than prior generations of moral theologians How do these differences influence the field of moral theology as a whole New Wine New Wineskins A Next Generation Reflects on Key Issues in Catholic Moral Theology addresses these questions and more by offering a snapshot of how a new generation of Catholic moral theologians understands not only topics in the field but the effects of their own identity and formation on their treatment of those topics The distinctive contribution of this volume is the interweaving of three key concerns all of which arise out of a critical self reflection on the task of moral theology today the character and adequacy of training and ongoing formation in the field of Catholic moral theology the purpose and nature of teaching Catholic moral theology and the fittingness of methodological debates with regard to the needs of the Christian life Each essay makes a contribution to its specific area of interest ranging from economic ethics to Patristic rhetoric to the nature and development of practical reasoning while probing what exactly young Catholic moral theologians are doing and how they can do what they do better

The Seductiveness of Virtue John J. Fitzgerald, 2016-12-15 John J Fitzgerald addresses here one of life s enduring questions how to achieve personal fulfillment and more specifically whether we can do so through ethical conduct He focuses on two significant twentieth century theologians Rabbi Abraham Joshua Heschel and Pope John Paul II seeing both as fitting dialogue partners given the former s influence on the Second Vatican Council s deliberations on the Jews and the latter s groundbreaking overtures to the Jews in the wake of his experiences in Poland before and during World War II Fitzgerald demonstrates that Heschel and John Paul II both suggest that doing good generally leads us to growth in various components of personal fulfillment such as happiness meaning in life and freedom from selfish desires There are however some key differences between the two theologians John Paul II emphasizes more strongly the relationship between acting well and attaining eternal life whereas Heschel wrestles more openly with the possibility that religious commitment ultimately involves anxiety and sadness By examining historical and contemporary analyses including the work of the Fourteenth Dalai Lama the philosopher Peter Singer and some present day psychologists Fitzgerald builds a narrative that shows the promise and limits of Heschel s and John Paul II s views
