Wiro J. Niessen

Virtual Cardiac Patient:

   Virtual You Peter Coveney,Roger Highfield,2023-03-28 The visionary science behind the digital human twins that will enhance our health and our future Virtual You is a panoramic account of efforts by scientists around the world to build digital twins of human beings from cells and tissues to organs and whole bodies These virtual copies will usher in a new era of personalized medicine one in which your digital twin can help predict your risk of disease participate in virtual drug trials shed light on the diet and lifestyle changes that are best for you and help identify therapies to enhance your well being and extend your lifespan but thorny challenges remain In this deeply illuminating book Peter Coveney and Roger Highfield reveal what it will take to build a virtual functional copy of a person in five steps Along the way they take you on a fantastic voyage through the complexity of the human body describing the latest scientific and technological advances from multiscale modeling to extraordinary new forms of computing that will make virtual you a reality while also considering the ethical questions inherent to realizing truly predictive medicine With an incisive foreword by Nobel Prize winning biologist Venki Ramakrishnan Virtual You is science at its most astounding showing how our virtual twins and even whole populations of virtual humans promise to transform our health and our lives in the coming decades   Medical Image Computing and Computer-Assisted Intervention - MICCAI 2001[Wiro J. Niessen,2001-10-02 This book constitutes the refereed proceedings of the 4th International Conference on Medical Image Computing and Computer Assisted Intervention MICCAI 2001 held in Utrecht The Netherlands in October 2001 The 122 revised papers and 136 posters presented were carefully reviewed and selected from a total of 338 submissions The book offers topical sections on image guided surgery shape analysis segmentation computer aided diagnosis registration simulation planning and modeling visualization quantitative image analysis medical robotics and devices visualization and augmented reality and time series analysis   **HCI International 2024 Posters** Constantine Stephanidis,Margherita Antona,Stavroula Ntoa,Gavriel Salvendy,2024-06-01 The seven volume set CCIS 2114 2120 contains the extended abstracts of the posters presented during the 26th International Conference on Human Computer Interaction HCII 2024 held in Washington DC USA during June 29 July 4 2024 The total of 1271 papers and 309 posters included in the HCII 2024 proceedings were carefully reviewed and selected from 5108 submissions The posters presented in these seven volumes are organized in the following topical sections Part I HCI Design Theories Methods Tools and Case Studies User Experience Evaluation Methods and Case Studies Emotions in HCI Human Robot Interaction Part II Inclusive Designs and Applications Aging and Technology Part III eXtended Reality and the Metaverse Interacting with Cultural Heritage Art and Creativity Part IV HCI in Learning and Education HCI in Games Part V HCI in Business and Marketing HCI in Mobility and Automated Driving HCI in Psychotherapy and Mental Health Part VI Interacting with the Web Social Media and Digital Services Interaction in the Museum HCI in Healthcare Part VII AI Algorithms and Tools in HCI Interacting with Large Language Models and Generative AI Interacting in Intelligent Environments HCI in Complex

Industrial Environments **Virtual, Augmented Reality and Serious Games for Healthcare 1** Minhua Ma,Lakhmi C. Jain,Paul Anderson,2014-04-25 There is a tremendous interest among researchers for the development of virtual augmented reality and games technologies due to their widespread applications in medicine and healthcare To date the major applications of these technologies include medical simulation telemedicine medical and healthcare training pain control visualisation aid for surgery rehabilitation in cases such as stroke phobia and trauma therapies Many recent studies have identified the benefits of using Virtual Reality Augmented Reality or serious games in a variety of medical applications This research volume on Virtual Augmented Reality and Serious Games for Healthcare 1 offers an insightful introduction to the theories development and applications of virtual augmented reality and digital games technologies in medical and clinical settings and healthcare in general It is divided into six sections section one presents a selection of applications in medical education and healthcare management Section two relates to the nursing training health literacy and healthy behaviour Section three presents the applications of Virtual Reality in neuropsychology Section four includes a number of applications in motor rehabilitation Section five aimed at therapeutic games for various diseases and the final section presents the applications of Virtual Reality in healing and restoration This book is directed to the healthcare professionals scientists researchers professors and the students who wish to explore the applications of virtual augmented reality and serious games in healthcare further Digital Twins and Simulation Technology Lavanya Sharma,Pradeep Kumar Garg,2025-07-04 This book provides a comprehensive overview of the concept of digital twins emphasising its strategic importance across various commercial domains This book covers the fundamentals data requirements tools and technologies essential for understanding and implementing digital twins It discusses how digital twins are used for running simulations analysing performance issues and generating potential improvements to optimise business processes The book explores the architecture historical background and real time applications in sectors including urban planning healthcare smart cities and manufacturing Explains digital twin technology including its core principles architecture and how it replicates physical objects in virtual platforms in detail Covers the data types and tools necessary for creating and maintaining digital twins including sensors data processing systems and integration methodologies Explores technologies such as Computer Vision IoT AI ML 5G AR and VR that drive the functionality and application of digital twins Analyses practical applications in diverse sectors like urban planning smart cities healthcare manufacturing operations and power generation equipment showcasing real world use cases and benefits Examines real time challenges and limitations associated with implementing digital twin technology providing a balanced view of its capabilities and constraints It is a reference book for researchers scholars and students who are working or interested in learning about digital twin technology **Human Aspects of IT for the Aged Population. Design, Interaction and Technology Acceptance** Qin Gao,Jia Zhou,2022-06-16 This two volume set constitutes the refereed proceedings of the 8th International Conference on Human Aspects of IT for the Aged Population

ITAP 2022 held as part of the 24th International Conference HCI International 2022 held as a virtual event during June July 2022 ITAP 2022 includes a total of 75 papers which focus on topics related to designing for and with older users technology acceptance and user experience of older users use of social media and games by the aging population as well as applications supporting health wellbeing communication social participation and everyday activities The papers are divided into the following topical sub headings Part I Aging Design and Gamification Mobile Wearable and Multimodal Interaction for Aging Aging Social Media and Digital Literacy and Technology Acceptance and Adoption Barriers and Facilitators for Older Adults Part II Intelligent Environment for Daily Activities Support Health and Wellbeing Technologies for the Elderly and Aging Communication and Social Interaction   Medicine Meets Virtual Reality 15 J.D. Westwood,R.S. Haluck,H.M. Hoffman,2007-01-18 MMVR is the premier conference on emerging data centered technologies for medical care and education MMVR is a multidisciplinary forum for computer scientists and engineers physicians and surgeons medical educators and students military medicine specialists and biomedical futurists At MMVR developers and end users collaborate and innovate MMVR encourages a critical examination of current progress from initial vision and prototypes through assessment and validation to clinical and academic utilization and commercialization MMVR supports improved precision efficiency and outcomes i   **HCI International 2023 Posters** Constantine Stephanidis,Margherita Antona,Stavroula Ntoa,Gavriel Salvendy,2023-07-08 The five volume set CCIS 1832 1836 contains the extended abstracts of the posters presented during the 25th International Conference on Human Computer Interaction HCII 2023 which was held as a hybrid event in Copenhagen Denmark in July 2023 The total of 1578 papers and 396 posters included in the 47 HCII 2023 proceedings volumes were carefully reviewed and selected from the 7472 contributions The posters presented in these five volumes are organized in topical sections as follows Part I HCI Design Theoretical Approaches Methods and Case Studies Multimodality andNovel Interaction Techniques and Devices Perception and Cognition in Interaction Ethics Transparency and Trust in HCI User Experience and Technology Acceptance Studies Part II Supporting Health Psychological Wellbeing and Fitness Design for All Accessibility and Rehabilitation Technologies Interactive Technologies for the Aging Population Part III Interacting with Data Information and Knowledge Learning and Training Technologies Interacting with Cultural Heritage and Art Part IV Social Media Design User Experiences and Content Analysis Advances in eGovernment Services eCommerce Mobile Commerce and Digital Marketing Design and Customer Behavior Designing and Developing Intelligent Green Environments Smart Product Design divPart V Driving Support and Experiences in Automated Vehicles eXtended Reality Design Interaction Techniques User Experience and Novel Applications Applications of AI Technologies in HCI Chapter Interactions Afforded by Mobile Telepresence Robots in Health Care Settings is available open access under a Creative Commons Attribution 4 0 International License via link springer com   *EHealth Portfolio of Projects* ,2007 Recoge Sixth framework program research and development The ICT for health unit working towards the Seventh Framework Program
