Vision Of Destiny:

Religious Myths and Visions of America Christopher Buck, 2009-04-30 At the heart of American studies is the idea of America itself Here Buck looks at the religious significance of America by examining those religions that have attached some kind of spiritual meaning to America The author explores how American Protestantism and nine minority faiths have projected America into the mainstream of world history by defining and by redefining America s world role Surveying the religious myths and visions of America of ten religions Buck shows how minority faiths have redefined America s sense of national purpose This book invites serious reflection on what it means to be an American particularly from a religious perspective Religious myths of America are thought orienting narratives that serve as vehicles of spiritual and social truths about the United States itself Religious visions of America are action oriented agendas that articulate the goals to which America should aspire and the role it should play in the community of nations Buck examines the distinctive perspectives held by ten religious traditions that inform and expand on the notion of America and its place in the world He covers Native American Protestant Catholic Jewish Mormon Christian Identity Black Muslim Islamic Buddhist and Baha i beliefs and invites serious reflection on what it means to be an American particularly from a religious perspective

[Visions of Zion](#) J. Larry Hood, 2005-02-24 Three decades after the Civil War amidst a resurgent patriotic fervor a new Christian Awakening and an enveloping modernization promising heretofore unimagined heights of prosperity and well being a new generation of Americans in rural Nelson and Washington Counties Kentucky were experiencing what Lincoln in their fathers war had promised a new birth of freedom Before them they saw the ancient vision of Zion America as the new Promised Land the Christian Republic the Shining City on a Hill shedding its light of prosperity and freedom on all Their destiny and calling they had no doubt was to secure liberty and its blessings for themselves and posterity This was the Vision and the hope that united them as a people and as a crusading army at home and abroad inspiring a multitude of social and political reforms and drawing them into the Great War of 1914 1918 It is this story that *Visions of Zion* tells of dreams that united and divided that lifted up and brought low a story of a drive for everlasting peace that led to war and that finally ends with the collapse of Zion and fading of all those wondrous dreams of a better world

The Philosophy of Universalism, Or, Reasons for Our Faith Isaac Dowd Williamson, 1866 **Heidegger's**

Phenomenology of Perception David Kleinberg-Levin, 2021-01-06 In volume I Kleinberg Levin interprets five key words in Heidegger's project. In this second volume he illuminates their significance for Heidegger's phenomenology of perception and his philosophy of history. At stake is the possibility of a new experience and understanding of being. Taking us beyond the metaphysical understanding of being, Heidegger proposes to introduce a new key word: *Seyn* (*beyng*). *Beyng* is the *Da-sein* appropriating event in which a clearing occurs as an open dimension for the time-space interplay of concealment and unconcealment, an interplay within which beings are experienced in regard to the various modes and inflections of presence and absence that the grammar of temporalities articulates. Concentrating on the appropriation of seeing and hearing as capacities and capabilities bearing promising potentialities that could be developed, Kleinberg Levin examines seeing and hearing in the context of Heidegger's critique of the history of metaphysics, wherein vision has served as paradigm for knowledge, truth, and reality. He shows that in Heidegger's philosophy of history, seeing and hearing are given a role in the transformation of the character of humanity, redeeming their own inherent potential. Perceptual experience has undergone accelerating processes of deformation and reification, encouraging a disposition that makes it serve technological and technocratic imperatives, but we might begin to redeem the promising potential in seeing and hearing, turning their damaged and dehumanized character and their violence towards the creation of a new planetary existence, what Heidegger imagines through the topology of the fourfold: earth and sky, mortals and the gods who embody our ideals. In this project we are put in question by a responsibility that summons us in our seeing and hearing to the response abilities most befitting our historically shared sense of an achieved humanity. [A Guidebook to the Biblical Literature](#) John Franklin Genung, 1919

[The Quest](#), 1920 [Courageous Hope](#) Leonard Doohan, 2011 This book's focus on leadership and hope is very appropriate given today's climate of distrust that many find results in a sense of hopelessness in their current leaders. Individuals and organizations are desperate for leaders of hope. Many books on leadership point to the need for inner motivation, but that inner motivation must be hope in new possibilities for a changed future. It is hope that gives a meaningful expression to leadership and enables the leader to be creative in dealing with the present. More than anything else, it is a vision of hope that can excite and empower leaders to inspire others to strive for a common vision. You can have faith in a vision, but it is only hope that keeps you working for it; for dedication to a vision is only proved in hope. Today's world and its many manifestations in organizational life are crying out for a new dedication to the vocation of leadership. The greedy, the abusers of power, the selfish will always be with us. May there also always be those men and women who will give their lives to leadership in service for others and in dedication to a future for which we hope. The aim of this book is to invite the reader to think about what he or she hopes for in leadership and how to be faithful to those hopes. **The Illustrative Lesson Notes for 1907** Ismar John Peritz, Frank Milton Bristol, Robert Remington Doherty, 1906 **The Divine Purpose of Grace as Seen from the Dark Valley of Sin in the Light of the Methods of Christ and of the Spirit** John Coutts, 1907

Violent Faith Darrius Geter, 2015-08-26 Many Christians often find themselves on the losing end of a spiritual battle because they allow fear, doubt, and the negative influences of others to rule. This only weakens their faith and allows Satan to gain a foothold. But the time for passivity in spiritual warfare needs to end. *Violent Faith* teaches you how to develop a vision for your life and bring it to fruition by challenging you to get violent inside and outside of yourself. But getting violent doesn't mean you should do harm to yourself or others. Instead, getting violent means that you should embark on an aggressive spiritual self-evaluation to identify root causes that hinder you from reaching your place of destiny. Pastor Darrius Geter's unique approach to spiritual warfare presents Christians with a new way of looking at faith. Geter demonstrates how to overcome a defeatist attitude, develop patience, and aggressively take back what the enemy is holding hostage from you. Whether you have bad thoughts, toxic relationships, or destructive habits, eliminating them from your life will help you to put Christ first once again. No longer should Christians have the mindset that they must suffer in silence. With *Violent Faith*, you can learn how to walk with faith so aggressive that the enemy will flee from your presence.

Diatessarica (a series dealing with the interpretation of the Gospels). 10 pt. [with] Indices Edwin Abbott, 1912 Light on the Gospel from an Ancient Poet Edwin Abbott, 1912 **One Thousand Best Books**, 1924 East London Visions O'Dermid W. Lawler, 1910 **A Harvester of Dreams** Emily Orr, 1922 **Radical Religion in America** Jeffrey Kaplan, 1997-01-01

The burning in Waco of the Branch Davidian compound and the Oklahoma City bombing have heightened fear of American extremist groups. Jeffrey Kaplan combines interviews, correspondence, and publications not hitherto accessible to examine the cultic milieu in which these religious movements exist. Kaplan discusses several radical belief systems but concentrates on three of the more prominent groups. They include the Christian Identity whose members believe they are the true Aryan descendants of Israeli biblical tribes, Odinism and the related Asatru movement which attempts to reconstruct the practices of Norse Germanic paganism, and Bhai Noah, the anti-Christian movement in favor of God's covenant with Noah. To explain the existence and durability of religious cults, he applies the philosophy of Colin Campbell. From Martin Marty, he employs the mapping theory to place the movements in the sphere of American spirituality. His work details how the groups interact, the internal organizational friction, and how the private anti-cult groups, the Anti-Defamation League, Klanwatch, and Cult Awareness Network monitor the activity of the movements. He argues that right-wing violence is primarily an impulsive act carried out by part-time revolutionaries against convenient targets or against that which represents change in the status quo. Thought-provoking in his analysis, Kaplan lays bare the issues for current debate: how sectarian organizations far outside the mainstream of American religious life pose a significant challenge to prevailing conceptions of the First Amendment. He questions the extent to which even the most antagonistic and despised groups can carry out fanatical actions and still benefit from such protection.
