## Were From China:

**China's Foreign Aid and Investment Diplomacy, Volume I** John F. Copper, 2016-04-29 Today by many accounts China is the world's foremost purveyor of foreign aid and foreign investment to developing countries. This is the product of China's miracle economic growth over a period of more than three decades together with China's drive to become a major player in world affairs and accomplish this through economic rather than military means. This three-volume work is the first comprehensive study of China's aid and investment strategy to trace how it has evolved since Beijing launched its foreign aid diplomacy at the time of the founding of the People's Republic of China in 1949. Volume I examines the definitions, origins, nature, and scope of foreign aid and investment by other countries. Using that background, John F. Copper then traces China's financial assistance to developing countries from the Mao period when China gave meaningful foreign aid despite its own economic struggles through the beginning of China's post-1978 economic boom and during subsequent decades of rapid economic growth. Copper shows that China has a more salient history in giving foreign assistance than any other country in the world while China's objectives in giving foreign assistance have changed markedly over time. China has always been driven by efforts to realize its foreign policy objectives and expand China's external influence.

**China's Assistance Program in Xinjiang** Yuhui Li, 2018-08-15 China's Assistance Program in Xinjiang: A Sociological Analysis examines the partnership assistance program (PAP) in Xinjiang of northwestern China which was initially implemented by the Chinese government during the 1990s. It was dramatically upgraded in 2010 following the 2009 riot in Urumqi, the capital city of Xinjiang. The program requires that a total of nineteen provinces and municipalities from coastal and central regions of China provide a huge amount of financial, material, technical, human capital, and other resources and aid to Xinjiang for at least ten years (2010-2020). This most recent version of the PAP has generated drastic social, demographic, economic, and environmental changes in the region. Yuhui Li looks at changes in Xinjiang in recent years as a result of the PAP implementation. Xinjiang has become increasingly more industrialized, modernized, and urbanized and is thus essential in helping the country realize the China dream. However, the heavily interventionist PAP could bring about unexpected consequences. For example, it could potentially aggravate the already tense racial relations in the region.

**China's Forgotten People** Nick Holdstock, 2019-06-13 After isolated terrorist incidents in 2015, the Chinese leadership has cracked down hard on Xinjiang and its Uyghurs. Today there are thought to be up to a million Muslims held in re-education camps in the Xinjiang region of North West China. One of the few Western commentators to have lived in the region, journalist Nick Holdstock travels into the heart of the province and reveals the Uyghur story as one of repression, hardship, and helplessness. *China's Forgotten People* explains why repression of the Muslim population is on the rise in the world's most powerful one-party state. This updated and revised edition reveals the background to the largest known concentration camp network in the modern world and reflects on what this means for the way we think about China.
