## **West Bank:**

The West Bank of Greater New Orleans Richard Campanella, 2020-05-06 Winner of the SESAH Book Award The West Bank has been a vital part of greater New Orleans since the city's inception serving as its breadbasket foundry shipbuilder railroad terminal train manufacturer and even livestock hub At one time it was the Gulf South's St Louis boasting a diversified industrial sector as well as a riverine mercantile and agricultural economy Today the mostly suburban West Bank is proud but not pretentious pleasant if not prominent and a distinct affordable alternative to the more famous neighborhoods of the East Bank Richard Campanella is the first to examine the West Bank holistically as a legitimate subregion with its own story to tell No other part of greater New Orleans has more diverse yet deeply rooted populations folks who speak in local accents who exhibit longstanding cultural traits and in some cases who maintain family ownership of lands held since antebellum times even as immigrants settle here in growing numbers Campanella demonstrates that West Bankers have had great agency in their own place making and he challenges the notion that their story is subsidiary to a more important narrative across the river The West Bank of Greater New Orleans is not a traditional history nor a cultural history but rather a historical geography a spatial explanation of how the West Bank's landscape formed its terrain environment land use jurisdictions waterways industries infrastructure neighborhoods and settlement patterns past and present The book explores the drivers conditions and power structures behind those landscape transformations using custom maps aerial images photographic montages and a detailed historical timeline to help tell that complex geographical story As Campanella shows there is no greater New Orleans without its cross river component The West Bank is an essential part of this remarkable metropolis

**Industrialization In The West Bank And Gaza** Simcha Bahiri, 2019-03-04 The West Bank and Gaza Strip occupied by Israel since 1967 have stagnated in the number employed some 17 000 in domestic industry for 20 years and in the percentage contribution 8.5 per cent to the gross domestic product Their 4 000 establishments are mostly workshops employing on average just over four workers Food and textiles are the dominant industries and there is much sub contracting for Israeli firms Some 90 per cent of industrial imports come from or through Israel and some 70 per cent of their industrial exports go to Israel with the remainder going to or through Jordan There are many barriers to the development of industry in the occupied territories but they overwhelmingly have their origin in the occupation itself and to a lesser degree result from difficulties made by Jordan The Military Government runs the territories to ensure not only military security but also Israel's economic security Three alternative economic scenarios are projected to 1997 based on three possible futures facing the territories a a conservative scenario based on continuing the occupation in its present form status quo b a reformist scenario in which both Israel and Jordan liberalize their policies within the framework of continued occupation and c a radical scenario in which Israel leaves the territories in return for peace and a separate Palestinian entity is established In terms of industrial development the conservative scenario would yield minimal results the reformist scenario some minor

improvements in the quality of life and the radical scenario would result in rapid industrial development and settlement of returning refugees
