

World Place Location

Allison M. Prasch

World Place Location:

World Place Location Learning System Richard M. MacKinnon, 1995 *Philosophies of Place* Peter D. Herschok, Roger T. Ames, 2019-06-30

Humanity takes up space Human beings like many other species also transform spaces What is perhaps uniquely human is the disposition to qualitatively transform spaces into places that are charged with distinctive kinds of intergenerational significance There is a profound felt difference between a house as domestic space and a home as familial place or between the summit of a mountain one has climbed for the first time and the same rock pinnacle celebrated in ancestral narratives Contemporary philosophical uses of the word place often pivot on the distinction between space and place formalized by geographer philosopher Yi fu Tuan who suggested that places incorporate the experiences and aspirations of a people over the course of their moral and aesthetic engagement with sites and locations While spaces afford possibilities for different kinds of presence physical emotional cognitive dramatic spiritual places emerge as different ways of being present fuse over time and saturate a locale with distinctively collaborative patterns of significance This approach to issues of place however is emblematic of what Edward S Casey has argued are convictions about the primacy of absolute space and time that evolved along with the progressive dominance of the scientific imagination and modern imaginations of the universal The recent reappearance of place in Western philosophy represents a turn away from abstract and a priori reasoning and back toward phenomenal experience and the primacy of embodied and emplaced intelligence Places are enacted through the sustainably shared practices of mutually responsive and mutually vulnerable agents and are as numerous in kind as we are divergent in the patterns of values and intentions The contributors to this volume draw on resources from Asian European and North American traditions of thought to engage in intercultural reflection on the significance of place in philosophy and of the place of philosophy itself in the cultural social economic and political domains of contemporary life The conversation of place that results explores the meaning of intercultural philosophy the critical interplay of place and personal identity the meaning of appropriate emplacement the shared place of politics and religion and the nature of the emotionally emplaced body

The World Is Our Stage Allison M. Prasch, 2023-02-08 A fresh account of the US presidential rhetoric embodied in Cold War international travel Crowds swarm when US presidents travel abroad though many never hear their voices The presidential body moving from one secured location to another communicates as much or more to these audiences than the texts of their speeches In *The World is Our Stage* Allison M Prasch considers how presidential appearances overseas broadcast American superiority during the Cold War Drawing on extensive archival research Prasch examines five foundational moments in the development of what she calls the global rhetorical presidency Truman at Potsdam Eisenhower's Goodwill Tours Kennedy in West Berlin Nixon in the People's Republic of China and Reagan in Normandy In each case Prasch reveals how the president's physical presence defined the boundaries of the Free World and elevated the United States as the central actor in Cold War geopolitics

The Place of the United States in a

World Organization for the Maintenance of Peace American Academy of Political and Social Science,1921 Visual Data ,2009-01-01 The visual inputs we receive can be collectively called visual data Precisely how one defines visual data is a key question to ask That is one of the questions we asked each author who wrote a chapter for this book If one comes to a decision with respect to what visual data are then the next question becomes What are visual data like Then What do they mean As with any data we can collect it and compile it but if we don t have some way to bring meaning it it has little value to us The answers may not be as straightforward as one might assume at the outset The extent to which visual data permeates what we do as educators is such that it may be difficult to identify every discipline in which it emerges In this book we have tried to provide a forum for authors from a cross section of common disciplines visual arts English literacy mathematics science social science and even higher education administration Philosophizing the Americas Jacoby Adeshei Carter,Hernando Arturo Estévez,2024-04-16 Philosophizing the Americas establishes the field of inter American philosophy Bringing together contributors who work in Africana Philosophy Afro Caribbean philosophy Latin American philosophy Afro Latin philosophy decolonial theory and African American philosophy the volume examines the full range of traditions that have separately and in conversation with each other worked through how philosophy in both establishes itself in the Americas and engages with the world from which it emerges The book traces a range of questions from the history of philosophy in the Americas to philosophical questions of race feminism racial eliminativism creolization epistemology coloniality aesthetics and literature The essays place an impressive range of philosophical traditions and figures into dialogue with one another some familiar such as Jos Mart Sylvia Wynter Martin R Delany Jos Vasconcelos Alain Locke as well as such less familiar thinkers as Arturo Alfonso Schomburg Hilda Hilst and George Lamming In each chapter the contributors find fascinating and productive matrices of tension or convergence in works throughout the Americas The result is an original and important contribution to knowledge that introduces readers from various disciplines to unfamiliar yet compelling ideas and considers familiar texts from novel and prescient perspectives Philosophizing the Americas stands alone as a representation of current scholarly debates in the field of inter American philosophy **Web-Age Information Management** Liwei Wang,Jingjue Jiang,Jiaheng Lu,Liang Hong,Bin Liu,2012-03-07 This book constitutes the thoroughly refereed post conference proceedings of three workshops of the 12th International Conference on Web Age Information Management WAIM 2011 held in Wuhan China in September 2011 The 20 revised full papers are organized in topical sections on the three following workshops the First International Workshop on Web based Geographic Information Management WGIM 2011 the Third International Workshop on XML Data Management XMLDM 2011 and the First International Workshop on Social Network Analysis SNA 2011 *The old world* Frank Morton McMurry,Almon Ernest Parkins,1926 *World Geography Today* David M. Helgren,Robert J. Sager,1995 *Elgar Encyclopedia of Food and Society* Lewis Holloway,Michael K. Goodman,Damian Maye,Moya Kneafsey,Alexandra E. Sexton,Ana Moragues-Faus,2025-08-11 Featuring over 120 entries from international

experts this Encyclopedia provides a comprehensive overview of the activities ideas issues and challenges that shape relationships between food systems and society Each entry includes an accessible and informative introduction to its topic along with specific examples recommended further reading and references to other sources This title contains one or more Open Access chapters
