Calvocoressi, 1991      *World Politics Since 1945* Peter Calvocoressi, 1971      **World Politics, 1945 - 2000** Calvocoressi, 2001-09      **International Politics Since World War II** Charles L. Robertson, 1997-01-01 The past half century has seen many hopes raised and some dashed a succession of fears and false alarms and both triumphs and calamities that were almost entirely unexpected This book offers a short but sweeping history of world politics since 1945 America's postwar preeminence and the hopes that attended the creation of the United Nations the Cold War and the emergence of a volatile Third World economic transformations and the twin threat of nuclear and natural disaster the crumbling of the Soviet system and the short lived promise of a peaceful prosperous and democratic new world Charles L Robertson describes these momentous changes concisely but evocatively in an effort to show how we got here from there and what we might have learned along the way His use of both documents and memoirs as well as scholarly sources and his avoidance of trendy theories gives this survey solid grounding The inclusion of maps and annotated reading lists makes the book fully accessible to students and general readers      *The Globalization of World Politics* John Baylis, Steve Smith, Patricia Owens, 2014 Working from a unique non U S perspective this market leading text provides a coherent accessible and engaging introduction to the globalization of world politics Now in its sixth edition *The Globalization of World Politics* has been fully revised and updated in light of recent developments in world politics **FEATURES** Presents contributions from an impressive line up of international experts each of whom provides accessible but stimulating insights into history theory structures processes and other key issues in the field Offers a visually appealing full color interior Provides a strong pedagogical program that includes numerous boxes figures tables maps questions lively examples and case studies

the challenges that face world peace and security in the twenty first century      **Power, Powerlessness, and Globalization**  
Opoku Agyeman, 2014-08-20 This book is about imperialism driven globalization its historic impact on Africa Latin America and Asia and over time the varied responses of the national political units and regional entities in these continents to the challenges of building countervailing power and laying foundations for independent development Where genuine recovery and empowerment have emerged this has been the result not only of the pursuit of dignified political and economic values that emphasize robust and sustained productivity geared toward uplifting the living standards and dignity of all the members of the national society but also of the creation of indigenous institutions whose relations with the external world are defined by equality rather than dependence and subordination Opoku Agyeman argues that dignification is the fundamentally necessary response to imperialism s inevitable afflictions of national racial humiliation It is the most crucial ingredient in the complex of motivations that propel formerly weak nation states and regional communities to rise up and defend the honor of their people As Mao Zedong told the world in 1949 Ours will no longer be a nation subject to insult and humiliation We have stood up This study argues emphatically that it is a country s or region s developed or developing capabilities not its historic and continuing victimization or habitual dependence on charitable aid and other altruistic interventions from the international community that determines its success in escaping the scourge of powerlessness and underdevelopment It further maintains that a people who have been brought low through brutal dehumanizing imperialism cannot bypass the need for redemptive empowerment if they wish to regain honor and a proper place in the world Finally it takes issue with Joseph Stiglitz Jeffrey Sachs and others like them whose moralistic critiques of the rapacity of imperialistic globalization carry the unfortunate implication that it is possible for a fair and just world social order to come out of incremental reforms of philanthropically motivated developed powerful countries in the structure and operations of global capitalism      *The Routledge Companion to Modern European History since 1763* Chris Cook, John Stevenson, 2004-11-10 The Routledge Companion to Modern European History since 1763 is a compact and highly accessible work of reference covering the broad sweep of events from the last days of the ancient regime to the ending of the Cold War and from the reshaping of Eastern Europe to the radical expansion of the European Union in 2004 Within the broad coverage of this outstanding volume particular attention is given to subjects such as the era of the Enlightened Despots the Revolutionary and Napoleonic era in France and the revolutions of 1848 nationalism and imperialism and the retreat from Empire the First World War the rise of the European dictators the coming of the Second World War the Holocaust and the post war development of Europe the Cold War the Soviet Union and its break up the protest and upheavals of the 1960s as well as social issues such as the rise of the welfare state and the changing place of women in society throughout the period With a fully comprehensive glossary a biographical section a thorough bibliography and informative maps this volume is the indispensable companion for all those who study modern European history      **Peace Movements** April Carter, 1992 There is a long tradition of opposition to war

and organized peace campaigns date from 1815 Since 1945 however modern weapons technology has threatened world wide destruction and has stimulated widespread protests *The Changing Agenda* Sylvia Babus Woodby,Martha Cottam,2021-06-02 This book provides an organized overview of the changing agenda of world politics since 1945 presenting economic and social issues where that seemed appropriate even when little action was taken about them and exploring OPEC as an example of the use of producer associations *The Best Books for Academic Libraries: World history* ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers Hitler's Japanese Confidant Carl Boyd,1993 In 1940 the US Army Signal Intelligence Service broke the Japanese diplomatic code In 1975 Oshima Hiroshi Japan s ambassador to Berlin during World War II died never knowing that the hundreds of messages he transmitted to Tokyo had been fully decoded by the Americans and whisked off to Washington providing a major source of information for the Allies on Nazi activities *International Politics Since World War II* Charles L.
