World Soul:

Freedom and Responsibility in Neoplatonist Thought Ursula Coope, 2020-04-16 The Neoplatonists have a perfectionist view of freedom an entity is free to the extent that it succeeds in making itself good Free entities are wholly in control of themselves they are self determining self constituting and self knowing Neoplatonist philosophers argue that such freedom is only possible for non bodily things The human soul is free insofar as it rises above bodily things and engages in intellection but when it turns its desires to bodily things it is drawn under the sway of fate and becomes enslaved Ursula Coope discusses this notion of freedom and its relation to questions about responsibility She explains the important role of notions of self reflexivity in Neoplatonist accounts of both freedom and responsibility In Part I Coope sets out the puzzles Neoplatonist philosophers face about freedom and responsibility and explains how these puzzles arise from earlier discussions Part II explores the metaphysical underpinnings of the Neoplatonist notion of freedom concentrating especially on the views of Plotinus and Proclus In what sense if any is the ultimate first principle of everything the One free If everything else is under this ultimate first principle how can anything other than the One be free What is the connection between freedom and nonbodiliness Finally Coope considers in Part III questions about responsibility arising from this perfectionist view of freedom Why are human beings responsible for their behaviour in a way that other animals are not If we are enslaved when we act viciously how can we be to blame for our vicious actions and choices

Schelling-Eschenmayer Controversy, 1801 Berger Benjamin Berger, 2020-03-18 During the first decade of the 19th century F W J Schelling was involved in 3 distinct controversies with one of his most perceptive and provocative critics A C A Eschenmayer The first of these controversies took place in 1801 and focused on the philosophy of nature Now Berger and

Whistler provide a ground breaking account of this moment in the history of philosophy They argue that key Schellingian concepts such as identity potency and abstraction were first forged in his early debate with Eschenmayer Through a series of translations and commentaries they show that the 1801 controversy is an essential resource for understanding Schelling's thought the philosophy of nature and the origins of absolute idealism

Descartes and Augustine Stephen Menn, Stephen Philip Menn, 2002-01-28 This book is a systematic study of Descartes relation to Augustine It offers a complete reevaluation of Descartes thought and as such will be of major importance to all historians of medieval neo Platonic or early modern philosophy Stephen Menn demonstrates that Descartes uses Augustine's central ideas as a point of departure for a critique of medieval Aristotelian physics which he replaces with a new mechanistic anti Aristotelian physics Special features of the book include a reading of the Meditations a comprehensive historical and philosophical introduction to Augustine's thought a detailed account of Plotinus and a contextualization of Descartes mature philosophical project which explores both the framework within which it evolved and the early writings to show how the collapse of the early project drove Descartes to the writings of Augustine
