The Collaborators:

The Collaborators Ian Buruma, 2023-03-07 Ian Buruma's spellbinding account of three near-mythic figures: a Dutch fixer, a Manchu princess, and Himmler's masseur who may have been con artists and collaborators under Japanese and German rule or true heroes or something in between. On the face of it, the three characters in this book seem to have little in common aside from the fact that each committed wartime acts that led some to see them as national heroes and others as villains. All three were mythmakers larger than life, storytellers for whom the truth was beside the point. Felix Kersten was a plump Finnish pleasure seeker who became Heinrich Himmler's indispensable personal masseur. Himmler calling him his magic Buddha. Kersten presented himself after the war as a resistance hero who convinced Himmler to save countless people from mass murder. Kawashima Yoshiko, a gender-fluid Manchu princess spied for the Japanese secret police in China and was mythologized by the Japanese as a heroic combination of Mata Hari and Joan of Arc. Friedrich Weinreb was a Hasidic Jew in Holland who took large amounts of money from fellow Jews in an imaginary scheme to save them from deportation while in fact betraying some of them to the German secret police. Sentenced after the war as a con artist, he was regarded by supporters as the Dutch Dreyfus. All three figures have been vilified and mythologized out of a never-ending need. Ian Buruma argues to see history and particularly war and above all World War II as a neat story of angels and devils. *The Collaborators* is a fascinating reconstruction of what in fact we can know about these incredible figures and what will always remain out of reach. What emerges is all the more mesmerizing for being painted in chiaroscuro. In times of life and death, stakes the truth quickly gets buried under lies and self-deception. Now when demagogues abroad and at home are assaulting the truth once more, the stories of the collaborators and their lessons are indispensable.

[The Collaborators: Interactions in the Architectural Design Process](#) Gilbert Herbert, Mark Donchin, 2016-03-23 Illustrated by critical analyses of significant buildings including examples by such eminent architects as Adler and Sullivan, Erich Mendelsohn, and Louis Kahn, this book examines collaboration in the architectural design process over a period ranging from the mid-19th century to the late 1960s. The examples chosen, located in England, the United States, Israel, and South Africa, are of international scope. They have intrinsic interest as works of architecture and illustrate all facets of collaboration involving architects, engineers, and clients. Prior to dealing with the case studies, the theoretical framework is set in three introductory essays which discuss in general terms the organizational implications of partnerships, associations, and teams; the nature of interactions between architect and engineer; and cooperation and confrontation in the relationship between architect and client. From this original standpoint, the interactive role of the designers is examined and reinterpreted, such as well-known buildings as the Chicago Auditorium and the Kimbell Art Museum. The re-evaluation of St Pancras Station and its hotel questions common presumptions about the separation of professional roles played by its engineer and architect. The account of the troubled history of Mendelsohn's project for the first Haifa Power House highlights the difficulties that arise when a determined and eminent architect

confronts a powerful and demanding client In a later era the examination of the John Moffat Building which is less well known but deserving of wider recognition reveals how the fruitful collaboration of multiple architects can result in a successful unified design These case studies comprise a wide range of programmes challenges personalities and interactions Ultimately in five different ways in five different epochs and in five different circumstantial and cultural contexts this book shows how the dialogue between the players in the design process resonates upo [A Guide for Collaborators in the Preparation of Abstracts for Botanical Abstracts](#) Botanical Abstracts, Inc.
