Most people with an interest in motor sport will be familiar with the acronym N A R T yet few people profess to know too much about the North American Racing Team Starting in the the second half of the 1950s NART existed for three decades during which it experienced successes on the tracks of America and Europe It also suffered financial difficulties and arguments with track organisers This book explains what NART was how it was formed and what it achieved over three decades of competition It wasn t just sports cars that were entered into races NART entered Formula One cars and Formula Junior cars as well Never as financially stable as his rival team owners Chinetti did deals with Ferrari to purchase the latest specification sports cars at the end of a season in

order to attract the best drivers to drive for NART It was also an opportunity to lease the cars on a race by race basis an arrangement that appealed to some of Chinetti s clientele Whilst success on the track was significant problems were never far away Working on the cars with a limited number of staff and not receiving spares from Ferrari on time NART always appeared to be in a state of crisis No matter despite the difficulties the formula worked well for Luigi Chinetti and the acronym N A R T has rightly become legendary

Scooter Lifestyle Ian Grainger,2014-09-16 There has been plenty said and written about scooters over the years but until now there has been no definitive look at the culture surrounding our chosen way of life Many authors have written about mods and the infamous and often over hyped beach battles of the 1960s but hardly any have tried to capture the atmosphere of the modern scene in print We still owe the original mods for fuelling the imagination of past present and future generations and for leaving a rich scooter heritage behind them Although the mod way of life was the spark which lit the fuse for many of us the majority of scooter riders have evolved into lifestyle scooterists We may not dress

in a particular style our scooters may not be adorned with lights and mirrors but we still burn with the same passion as our scooter riding ancestors It s over sixty years since the first Italian scooters rolled off the production lines but there is still a buzzing and vibrant lifestyle surrounding them The small capacity machines have overtaken the lives of thousands of us often to the detriment of everything else we hold dear Careers relationships and families have suffered for this overwhelming and expensive addiction An addiction to which there is no cure We live and breathe the sickly sweet smell of synthetic two stroke oil and worship at the altar of our chosen gods Lambretta and Vespa or occasionally Gilera and Italjet Our hands are permanently ingrained with the oily tattoo s of a thousand engine rebuilds and our major organs have suffered the long term effects of our hedonistic lifestyle Including interviews with well known scootering personalities over 150 colour photographs of award winning custom scooters best selling scooter models and information on rallies and events this book is a must have for anyone interested in these fun machines
