Eilberg-Schwartz, Wendy Doniger, 1995-11-14 Whereas many books look at how women s bodies are represented in different religions and cultures around the world this work explores the site of a woman s voice and identity her head The female head threatens to disrupt the classic gender distinctions that link men to speech identity and mind while relegating women to silence anonymity and flesh The contributors to this collection argue that the objectification of women as sexual and reproductive bodies results in their symbolic beheading Decapitation occurs symbolically in myths as well as in actual practices such as veiling head covering and cosmetic highlighting which by sexualizing a woman s face turns it into an extension of her body The essays explore how similar treatments of the female head find their unique articulation in diverse religious traditions and cultures in Hindu myths of beheading in Buddhist and Tantric practices and poetry about the hair of female nuns in the resistance to veiling by early Christian women at Corinth in contemporary veiling practices in a Turkish village in the eroticization of the female mouth in ancient Judaism and in Greek and Roman cosmetic practices Together these essays show how the depiction of the female head is critical for an understanding of gender and its influence on other fundamental religious and cultural issues **A Dictionary of the Bible: Kir-Pleiades** James Hastings, John Alexander
